

## JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Simultaneous Identities Uma Pradhan, 2020-12-03 The recent socio political changes in Nepal have brought assimilationist notions of Nepali nationalism under a tight scrutiny and drawn attention to more plural inclusive and diverse notions of Nepaliness However both assimilationist and pluralist visions continue to remain normative in their approach and often posit ethnic and national identity in opposition to each other Drawing on the everyday practices in the two schools this book illustrates that social actors in minority language education did not necessarily select between minority identity and national identity but instead made simultaneous claims to more than one social identity by discursively positioning ethnic identity as national identity It builds on the notion of simultaneity to illustrate that it is through the unresolved co presences of apparently contradictory ways that people maintain their multi layered identities By arguing for an analytical necessity to adopt relational approach it aims to complicate the neat compartmentalisation of identities

**Planning and facilitating group learning** Marcus Witt, Ben Knight, 2025-02-28 This is an innovative text for teacher educators exploring detailed research and information that novice teachers need to know about group work in school settings There is more to learn about group work than simply sitting children together and letting them get on with it Group work across schools is very common and trainee teachers will step into classrooms where small groups are a predominant structure Research has

suggested that there is a great deal more to understand about group work however there is a tacit presumption in ITE that trainee teachers will simply pick up the expertise associated with organising and managing group work This book aims to fill in the gaps and educate trainee teachers on the subtleties and complexities of group work to ultimately make their teaching more impactful and effective In this accessible and informative guide the authors delve into the existing research on how children learn in collaborative groups and what trainee teachers need to learn and understand about planning and executing group learning It examines the skills teacher educators should aim to develop in pre service teachers to help them build expertise in this important area Following other books within the series this book is packed with case studies and opportunities for critical thinking
