Conrad and the Being of the World Nicholas Gayle, 2022-01-21 Why is it that many readers sense in Joseph Conrad's universe something opaque and withdrawn a suggestive feeling of something lying behind his richly textured prose that is possibly momentous always hidden but never fully expressed This unique study explores and answers this question by analysing Conrad's work through the lens of Object Oriented Ontology a new development in contemporary philosophy that has already been employed to illuminating effect in aesthetics and the humanities quite apart from philosophy itself What results from such a literary and philosophical coupling is a persuasive reading with real explanatory force one able to shed light on what has remained hidden in Conrad till now at the same time as it articulates a metaphysical structure of not just Conrad's world but the universe itself and the very things we are and what we take ourselves to be

People on the Move Harald Kleinschmidt, 2003-12-30 While most people in the world are descendants of migrants not everyone is conscious of the migration patterns of their ancestors The goals and motives for moving or staying are changing diverse and often difficult to specify As a result of 19th century residentialist social and political theories many scholars generally assume that migration is a pattern of behavior that deviates from the norm and requires a specific motive or reason This study details the variety of changing historical patterns of migrant behavior by examining migration patterns over 1500 years in Europe and Southeast Asia Kleinschmidt researches migrants and describes how they viewed themselves He also includes a look at lawmakers political decision makers and administrators to analyze the changes of their attitudes towards and perceptions of migration The study places migration within and out of the two regions into a long timeframe to demonstrate the ubiquitous and transience of patterns of migrant behavior It considers external attitudes and perceptions of migration within the context of the social and political theories of their own time The two distinct geographic foci of the study allow for discussion of the characteristic features of each region
