Morzaria,Susanna Williamson,1999-01-01 **Veterinary Vaccines and Diagnostics** ,1998-10-27 This volume of Advances in Veterinary Medicine derived in part from the First Veterinary Vaccines and Diagnostic Conferences deals with vaccines an especially active area of veterinary research and controversy **The Threat of Pandemic Influenza** Institute of Medicine,Board on Global Health,Forum on Microbial Threats,2005-04-09 Public health officials and organizations around the world remain on high alert because of increasing concerns about the prospect of an influenza pandemic which many experts believe to be inevitable Moreover recent problems with the availability and strain specificity of vaccine for annual flu epidemics in some countries and the rise of pandemic strains of avian flu in disparate geographic regions have alarmed experts about the world s ability to prevent or contain a human pandemic The workshop summary The Threat of Pandemic Influenza Are We Ready addresses these urgent concerns The report describes what steps the United States and other countries have taken thus far to prepare for the next outbreak of killer flu It also looks at gaps in readiness including hospitals inability to absorb a surge of patients and many nations incapacity to monitor and detect flu outbreaks The report points to the need for international agreements to share flu vaccine and antiviral stockpiles to ensure that the 88 percent of nations that cannot manufacture or stockpile these products have access to them It chronicles the toll of the H5N1 strain of avian flu currently circulating among poultry in many parts of Asia which now accounts for the culling of millions of birds and the death of at least 50 persons And it compares the costs of preparations with the costs of illness and death that could arise during an outbreak **OIE Bulletin** International Office of Epizootics,2006 Development of an Analytical Tool to Assess National Biosecurity Legislation Daniele Manzella,Jessica Vapnek,2007-01-01 Biosecurity aims to facilitate the implementation of international obligations related to international trade and the protection of human animal and plant life and health as well as the environment It looks at the coordination of sectoral regulatory authorities in order to manage biological risks for food and agriculture in an efficient and holistic manner Upgraded legislation is needed to align national laws to international standards and to enhance institutional coordination Countries require comprehensive and consistent

national legal frameworks for Biosecurity in order to implement effective controls increase cost effectiveness and improve consistency across sectors Reviewing and assessing what legislation is in place is the first step toward implementing a Biosecurity approach It is not an easy exercise as the normative and functional components of Biosecurity are often found in a plethora of laws and regulations Based on the six pilot country studies this text develops an analytical methodology to review and assess national legal frameworks for Biosecurity

The Commodification of Farm Animals Sophie Riley, 2022-02-15 This book examines how the developments in veterinary science philosophy economics and law converged during the nineteenth and early twentieth centuries to entrench farm animals along a commodification pathway It covers two neglected areas of study the importance of international veterinary conferences to domestic regimes and the influence of early global treaties that dealt with animal health on domestic quarantine measures The author concludes by arguing that society needs to reconsider its understanding and the place of the welfare paradigm in animal production systems As it presently stands this paradigm can be used to justify almost any self serving reason to abrogate ethical principles The topic of this book will appeal to a wide readership not only scholars students and educators but also people involved in animal production interested parties and experts in the animal welfare and animal rights sector as well as policy makers and regulators who will find this work informative and thought provoking
