The Politics of Energy and Memory between the Baltic States and Russia Agnia Grigas, 2016-03-03 Since the 1990s Baltic Russian relations have been amongst the most contentious on the European continent Energy security concerns historical legacies and the status of Russian minorities have all proved key flash points Baltic Russian relations have been described as a litmus test of Russia's willingness to leave behind its imperialist ambitions simultaneously the policies of Tallinn Riga or Vilnius towards Russia can have a direct impact on EU Russian and NATO Russian relations The Baltic states share similar histories and resources and face the same geopolitical challenges All are dependent on Russia for energy yet as this fascinating study reveals they have pursued very different foreign policies towards their powerful neighbour In *The Politics of Energy and Memory between the Baltic States and Russia* Agnia Grigas provides an unprecedented analysis of contemporary Baltic Russian relations and identifies the causal factors that drive the foreign policies of the Baltic states in such divergent routes Supported by case studies on the oil and gas sectors as well as the tug of history this book is an invaluable resource for scholars and policy makers

Political and Investment Risk in the International Oil and Gas Industry Steven A. Mucci, 2017-10-11 This book examines the financial legal and institutional strategies available to the international oil and gas industry to manage political and investment risk The financial techniques for mitigating and allocating risk include corporate finance joint ventures and project finance The legal techniques include production sharing agreements profit sharing agreements service contracts bilateral investment treaties and multilateral investment treaties The institutional techniques include domestic courts national constitutions international arbitral tribunals governmental and non governmental regulatory agencies alliances and energy diplomacy This book traces the historical development of these techniques and their application in practice The effectiveness with which companies manage political and investment risk is important for the financial sustainability of individual firms and the industry as whole The real and perceived level of risk affects the level of exploration expenditures and therefore the balance between supply and demand and the price of oil and natural gas The search for a secure supply of oil and gas affects the political military and economic relations between countries Consequently every developed and developing country has placed energy policy at or near the top of its national priorities

Routledge Handbook of Persian Gulf Politics Mehran Kamrava, 2020-05-31 The Routledge Handbook of Persian Gulf Politics provides a comprehensive and up to date analysis of Persian Gulf politics history economics and society The volume begins its examination of Ottoman rule in the Arabian Peninsula exploring other dimensions of the region's history up until and after independence in the 1960s and 1970s Featuring scholars from a range of disciplines the book demonstrates how the Persian Gulf's current complex politics is a product of interwoven dynamics rooted in historical developments and memories profound social cultural and economic changes underway since the 1980s and the 1990s and inter state and international relations among both regional actors and between them and the rest of the world The book comprises a total of 36 individual chapters divided into the following six sections Historical Context Society and Culture Economic Development Domestic Politics Regional Security Dynamics The Persian Gulf and the World Examining the Persian Gulf's increasing importance in regional politics diplomacy economics and security issues the volume is a valuable resource for scholars students and policy makers interested in political science history Gulf studies and the Middle East *Host Government Agreements and the Law in the Energy Sector* Hakan Sahin, 2018-12-12 The energy industry is a key source of growth stimulation for developing states Understandably developing states are eager to enter into petroleum investment contracts with international investors with the expectation that this will benefit their countries The domestic law of some developing states provides a welcoming investment environment in the form of guarantees and stability while other states provide these opportunities by agreeing to investment contracts or treaties drafted by international organisations established to facilitate such agreements This book identifies the political risks particularly of indirect expropriation that arise from the unilateral actions of host governments during the lifespan of energy investment projects Focusing on stabilisation clauses as a political

risk management tool this research based study draws on comparative empirical evidence from Turkey and Azerbaijan to determine what influences host states to consent to the insertion of stabilisation clauses in long term host government agreements Proposing a framework for the role to be played by both internal forces and external forces it examines political regimes and state guarantees to foreign investors in Azerbaijan and Turkey from a comparative perspective assessing how effective internal factors in Azerbaijan and Turkey are in facilitating contractual stability in their energy investment projects Providing a comprehensive analysis of stabilisation clauses and the internal and external factors that compel host states to commit to them this book will appeal to practitioners students and scholars in international investment law and energy law

China's Global Energy Expansion Xiaohan Gong, 2024-10-03 Should Chinese energy investments be excluded from the liberal economic system based on geopolitical assessments only This book explores the potential regulatory control by the Chinese government over foreign energy investments to achieve their perceived strategic objectives Host states in which Chinese energy companies make investments have increasingly opposed Chinese energy investments in their national security reviews based on concerns that these investments have strategic objectives The book analyses China's investment related law regulations and energy policies to examine how overseas energy investment making is governed The book also explores the role of the Chinese government in energy investment promotion and protection Uniquely the examination of China's potential regulatory control provides an objective criterion rather than geopolitical considerations for host states to assess the nature of Chinese energy investments The book helps readers to open the black box of Chinese energy investments from a regulatory perspective It is a useful resource for researchers as well as practising lawyers assisting their Chinese clients through national security reviews or when trying to determine whether China's SOEs can bring cases before investor state arbitration tribunals *Energy Resources and Government, Materials Submitted to the Subcommittee on Automation and Energy Resources by Federal and State Regulatory and Developmental Agencies* United States.
