project changing and adapting sometimes for the better sometimes for the worse All our lives we wander to find a better place to live or a better job to learn new skills to make a discovery or to invent something of value Today technology has removed boundaries We can easily physically travel to different places in the world but we can also bounce around the virtual space of the web where we make acquaintances worldwide In our travels we build our homes make new friends raise our children attend weddings and say goodbye to friends and family sending them to the world beyond Even thousands of miles from where we were born and raised we keep our customs and practice the traditions that we have been nourished with We share them with friends who have a different cultural heritage upbringing and faith and we in turn accept new ones We must learn to respect other cultures as much as we support people in our own community Traditions are a great way to teach children the cultural and religious history of mankind by giving them their own identity and roots Culture is a temple for the

human soul This is what we carry with us as we wander what we develop as we adapt to the place we choose to call our home
