Oldfashioned Values English Edition:

Good Old-Fashioned Values Melissa Vosen Callens, Olivia Vogt, 2024-07-18 Seth MacFarlane has made an immense mark on popular culture through both his live action and animated television series Family Guy American Dad The Cleveland Show and The Orville While MacFarlane has garnered a large legion of fans even those who do not personally watch Family Guy this longest running series will be quick to recognize images of Peter and Stewie Griffin a caricature of the clueless dads from sitcoms of yesteryear and an inexplicably queer coded evil baby genius respectively This book explores Family Guy and Seth MacFarlane's other animated series closely examining how the series uses satire and other strategies to construct specific ideas related to sex gender and family The authors argue that the series like many other television series contribute to our collective understanding of family and reinforce at times unfavorable gender stereotypes **Get Real About Sex** Alldred, Pam, David, Miriam, 2007-07-01 Up to date and accessible this book manages to be both theoretically subtle and attuned to the realities of classroom practice Dr Rachel Thomson The Open University This book is a great success and provides a wealth of insights into the realities of teaching and being taught about sex and relationships Michael Reiss Institute of Education What are the different values and perspectives on sex and relationship education within a single secondary school How do young people think sex education should be taught What are the challenges facing the provision of good sex and relationship education at the classroom level and at the political level Young people often receive mixed messages about gender and sexual relationships When providing sex education lessons schools should take into account different ideas and values including the general British embarrassment over intimate matters and differing political and personal views about sex education This book combines young people's views of sex education schooling and parenthood with those of teachers school nurses and head teachers It brings together these varied perspectives and considers how they reveal different values aims and agendas The authors highlight the potential conflict between approaches to education and health and reveal the complexity of dealing with sexuality and gender in real life situations Focusing on young people's identities in the classroom contemporary theoretical approaches in the social sciences are employed to explore how gender is enacted and experienced by individuals and how social pressures and government agendas operate at the level of the individual This book contains original first hand empirical material from a detailed study of all the schools in one English city and offers a critical analysis of broader political and cultural ideas and values **Get Real About Sex** is key reading for students and professionals in education health and the sociology of gender and sexuality **Phantom Democracy** C. Boggs, 2011-08-15 In a powerful new book Boggs traces the historical evolution of American politics by focusing on the gradual triumph of corporate and military power over democratic institutions and practices The consequences of expanding United States global presence since World War II involving an integrated and interwoven system of power based in the permanent war economy national security state and corporate interests has meant erosion of democratic politics

strengthening of the imperial presidency increased corporate and military influence over elections and legislation weakening of popular governance and diminution of citizenship The events of 9 11 and their aftermath including the War on Terror two lengthy wars and foreign occupations new threats of war and massive increases in Pentagon spending have only deepened the trend toward ever more concentrated forms of power in a society that ostensibly embraces democratic values Such developments Boggs argues have deep origins in American history going back to the founding documents ideological precepts of the Constitution early oligarchic rule slavery the Indian wars and westward colonial expansion The Origin of Wealth Eric D. Beinhocker,2006 Beinhocker has written this work in order to introduce a broad audience to what he believes is a revolutionary new paradigm in economics and its implications for our understanding of the creation of wealth He describes how the growing field of complexity theory allows for evolutionary understanding of wealth creation in which business designs co evolve with the evolution of technologies and organizational innovations In addition to giving his audience a tour of this field of complexity economics he discusses its implications for real world issues of business *Public Transit* Peter Pike,2008-01-01 Steve Winters life is in shambles Near bankrupt forced to work unpaid overtime and made the legal guardian of his brother so his father could exploit a legal loophole to create a tax shelter Winters finds himself in a rut While he wonders what to do next in his life Justin Winters Steve s brother is just beginning his journey through public high school A novel that is as much a social commentary as it is a critique of modern philosophy *Public Transit* is a wonderful tale of Americana **Grandma Bet's Poems** Betty Risner Brown,2019-02-26 *Grandma Bet s Poems* By Betty Risner Brown Being a parent is a wonderful thing Being a grandmother is something truly special In *Grandma Bet s Poems* Betty Risner Brown reflects on the moment she became Grandma Bet Enjoy her passion for poetry writing about her family relationships and the simple things in life **The Etruscan World** Jean MacIntosh Turfa,2014-11-13 The Etruscans can be shown to have made significant and in some cases perhaps the first technical advances in the central and northern Mediterranean To the Etruscan people we can attribute such developments as the tie beam truss in large wooden structures surveying and engineering drainage and water tunnels the development of the foresail for fast long distance sailing vessels fine techniques of metal production and other pyrotechnology post mortem C sections in medicine and more In art many technical and iconographic developments although they certainly happened first in Greece or the Near East are first seen in extant Etruscan works preserved in the lavish tombs and goods of Etruscan aristocrats These include early portraiture the first full length painted portrait the first perspective view of a human figure in monumental art specialized techniques of bronze casting and reduction fired pottery the bucchero phenomenon Etruscan contacts through trade treaty and intermarriage linked their culture with Sardinia Corsica and Sicily with the Italic tribes of the peninsula and with the Near Eastern kingdoms Greece and the Greek colonial world Iberia Gaul and the Punic network of North Africa and influenced the cultures of northern Europe In the past fifteen years striking advances have been made in scholarship and research techniques for

Assessing Affective Characteristics in the Schools Lorin W. Anderson, Sid F. Bourke, 2013-05-13 The affective realm is a critical but often forgotten aspect of schooling The development of character and the formation of appropriate learning environments rely to a large extent on understanding the affective nature of students Even when the focus is on cognitive achievement affect has a role to play Teachers frequently mention a lack of motivation as a primary reason for students not achieving as well as they should or as well as their teachers would like Despite the importance of affect educators rarely make an effort to systematically collect and use information about students affective characteristics to better understand students and to substantially improve the quality of education they receive This book s purpose is to provide educators with the knowledge and skills they need to design and select instruments that can be used to gather information about students affective characteristics Once valid and reliable information has been gathered it can be used to aid in understanding and to improve educational quality The second edition features an updated list of affective characteristics i e attitudes values interests self esteem self efficacy locus of control a dual emphasis on selecting and designing affective assessment instruments an emphasis on multi scale instruments i e a single instrument with multiple affective scales the use of a single small data set to illustrate and foster understanding of key concepts and procedures a dual emphasis on data about individual students and groups of students a dual focus on the instrumental value of affective data and the inherent value of affective data i e affect is valuable in and of itself

Not Everyone Gets A Trophy Bruce Tulgan, 2009-01-23 This book will frame Generation Y children born between 1978 1991 for corporate leaders and managers at time when the corporate world is desperate to recruit and retain worked in this age group It will debunk dozens of myths including that young employees have no sense of loyalty won t do grunt work won t take direction want to interact only with computers and are only about money This book will make a unique contribution in four key ways It will disprove the idea that the key to recruiting retaining and managing this generation is to somehow make the workplace more fun To the contrary Tulgan argues that the key to winning the respect of this generation and getting the best effort out of them is to carefully manage their expectations by never downplaying any negative aspect of a job He will show managers how this Generation thinks transactionally in all negotiations For them it s about what they will do for you today and what you will do for them today not tomorrow not five years from today but today He will explain why they have no interest in tying their futures to your corporation But he will also make clear that they do have a well thought out plan for themselves one that requires that every job they take build up their skill sets so they become more valuable employees for someone else if and when you do not fulfill your end of the bargain or drag your feet in doing so But most of all it will explain to corporate leaders that for this generation their personal life comes first so that each job they take must accommodate itself to some need defined by their personal life Tulgan argues

that until you know the personal need the job can satisfy for a potential employee you and the applicant may be talking past each other Those needs are so beyond the imagination of most bosses that Tulgan devotes a third of the book to explaining how they affect the job decisions of this generation Educational Failure and Working Class White Children in Britain G.
