STEM Education in Poverty
Brantina Chirinda, Gladys Sunzuma, Perkins Muredzi, 2025-07-15 This book is about Science Technology Engineering and Mathematics STEM education in poverty and the lessons we learn from Zimbabwe The world is driving towards the fourth Industrial Revolution 4IR where economic growth has been attributed to STEM education STEM education is vital in this era where both developed and developing countries are undergo rapid changes Globally STEM education has been practised differently in schools and universities University programs new school curricula instructional methods extracurricular programs and professional development programs for in service teachers have been created to cater to STEM subjects STEM education is envisioned to produce critical thinkers inventors creators problem solvers innovators and professionals who will solve the world's ever changing challenges including inequity food insecurity climate change inequality and poverty STEM is essential to modern education Zimbabwe has faced significant economic challenges but has made remarkable strides in STEM education By examining the successes and challenges of STEM education in Zimbabwe we can learn valuable lessons about improving STEM education in underserved communities This book contributes to the international debate surrounding the optimal STEM education for students in underserved schools It incorporates detailed accounts of STEM education in Zimbabwe schools shedding light on the challenges students and educators face in impoverished areas In Zimbabwe STEM education faces significant challenges such as materials and facilities pedagogy policy reform access and relevance Some of the main issues highlighted in this book are the need for more resources including funding teaching materials and adequate laboratories Effective STEM pedagogy is hampered by an education system that emphasises the curriculum and teacher centred focus instead of focusing on how students can be taught or learn Research has shown that in Zimbabwe STEM teachers must apply inventive pedagogies and suitable learner centred STEM teaching approaches As a result there is a need for more STEM related programs and courses in schools and universities to improve the opportunities for students to pursue careers in these fields Another challenge is the need for more awareness about the opportunities and importance of STEM education and interest in STEM subjects among students which can be attributed to a lack of exposure and understanding of the relevance and importance of these fields in today's world While lack of resources and other challenges hinder effectiveness opportunity lies in promising pathways of policy and practice In Zimbabwe there is a varying degree of success in the implemented competence based curriculum which emphasises inquiry based learning and STEM education Finally

there is a need for early exposure to STEM based career opportunities and for more collaboration between the government private sector and educational institutions to address these challenges and promote STEM education in Zimbabwe This book uses Zimbabwe as an example to explore STEM education in poverty By examining the successes and challenges of STEM education in Zimbabwe this book offers valuable insights into how STEM education can be integrated into the curriculum in countries with developing and emerging economies This book is an essential resource for anyone interested in improving STEM education in underserved communities

CURRICULUM REFORM IN PAKISTAN Amna Afreen, 2022-02-25 I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system The book examines the questions Why and how has a small elite class come to rule Pakistan And how has their rule worsened the country's problems The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society The book represents the fusion of my experiences in Pakistan with extensive literature analysis interviews and textbook analysis This research began when I came to the United States in January 2015 through the SAR program I wanted to know the answers to profoundly unsettling questions How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western educated scholars with traditional insular thoughts are not only appreciated but flourishing I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky high inflation The influential religious leaders mostly belong to the elite class while their followers are mostly lower class Ruling families and social classes mostly control appointed positions Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam Why don't they work to end the disparity of quality education between classes in Pakistan Instead many elites run their own lucrative elite Islamic schools More importantly why do the ulama which literally means those who possess knowledge particularly of Islam maintain a tight hierarchical system in the madrasa Islamic seminary community that rarely allows poor intelligent students to attain leadership positions Why are the ulama silent in the face of ruthless murder of and discrimination against Pakistani minorities Book Review Pakistan Educational Reforms is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions intolerance and conflicts Dr Amna Afreen documents the political socio economic and religious causes limited government funding widespread poverty and illiteracy and the poor training and performance of teachers that have produced a failed educational system at urban and rural government and religious schools madrasa and offers a series of potential solutions and reforms John L Esposito University Professor and Founding Director of The Alwaleed Center for Muslim Christian Understanding Georgetown University

Vocabulary in the Foreign Language Curriculum James Milton, Oliver Hopwood, 2022-11-14 Written by experts in the field this book explains the principles of effective vocabulary instruction for the modern language classroom While many language classrooms rely on practices which can be outdated idiosyncratic or ill advised this book overviews the research and background necessary to successfully integrate vocabulary instruction into the curriculum in a systematic way Starting with

the common gaps in vocabulary instruction Milton and Hopwood demonstrate how students development of a large communicative lexicon with an understanding of word structure and collocations is an essential component of language instruction The book addresses goal setting curriculum design word selection how words are learned learning in and outside of the classroom and more It also addresses common myths about teaching vocabulary in the United Kingdom and around the world This comprehensive text fills an important gap in the literature and is ideal for undergraduate and postgraduate courses in world language foreign language methods and language methods courses The Contribution of Universities Towards Education for Sustainable Development Walter Leal Filho, Thais Dibbern, Salvador Ruiz de Maya, María-del-Carmen Alarcón-del-Amo, Longinos Marin Rives, 2024-04-01 The book gathers inputs from universities and research organizations working on matters related to sustainable development in a variety of contexts It also provides a platform for the dissemination of information on the latest initiatives paving the way for technology transfer and networking Furthermore the book intends to provide a fertile basis upon which universities may cooperate more closely in this key area Universities as centers of education research and innovation have a unique position and responsibility in promoting sustainability They can offer degree programs courses and workshops focused on sustainability environmental studies and related fields educating students and the wider community about the principles and challenges of sustainability Also universities can conduct cutting edge research to address sustainability challenges such as climate change resource depletion and biodiversity loss They can develop innovative technologies and solutions that promote sustainable practices in various sectors including energy agriculture transportation and urban planning There is a perceived need to better understand and engage universities further on sustainability initiatives Against this backdrop and in order to facilitate a broad discussion on the contribution of universities toward sustainability this book is being produced Last but not least a further aim of the book is to present methodological approaches and experiences deriving from case studies and projects which aim to show how sustainability may be incorporated as part of university programs *Navigating Learning, Culture, and Identity in Island Education* Bufalino, Giambattista, 2025-06-06 Navigating Learning Culture and Identity in Island Education invites readers into the lived educational experiences of island communities where geography tradition and the rhythms of the natural world converge to characterize distinctive pedagogical practices In these contexts educational processes are characterized by situated relationships with the land and sea with cultural memory and identity and with the often close knit social fabric of island communities While challenged by limited infrastructure and scarce resources island communities cultivate pedagogies of resilience adaptive situated and deeply relational These educational approaches emerge not in spite of isolation but through it formed by proximity interdependence and a sustained attentiveness to place Navigating Learning Culture and Identity in Island Education explores selected educational landscapes across a range of island communities worldwide From the Greek Aegean to the Ryukyus from Ponza and Sicily to the Maldives Philippines Solomon Islands and the Canadian Maritimes this

volume highlights how spatial distinctiveness cultural hybridity and ecological vulnerability shape the ways in which people learn teach and lead in island contexts Educational practices arise in response to local histories environmental precarity linguistic and cultural diversity and the legacies of colonization Themes explored include school community collaboration sustainability education inclusive and intercultural pedagogy literary imaginaries of the sea leadership development and the complex transitions faced by students in island based higher education Spanning formal non formal and community based learning across various small island states and territories the chapters establish a productive dialogue between educational research and island studies This volume offers both theoretical insights and practical approaches for educators scholars and policymakers seeking educational paradigms that are both locally grounded and globally resonant At once rooted and far reaching *Navigating Learning Culture and Identity in Island Education* invites readers to rethink what education means in places defined not only by their geography but by their imaginative cultural and ecological distinctiveness Singapore Literature and Culture Angelia Poon, Angus Whitehead, 2017-03-03

Since the nation state sprang into being in 1965 Singapore literature in English has blossomed energetically and yet there have been few books focusing on contextualizing and analyzing Singapore literature despite the increasing international attention garnered by Singaporean writers This volume brings Anglophone Singapore literature to a wider global audience for the first time embedding it more closely within literary developments worldwide Drawing upon postcolonial studies Singapore studies and critical discussions in transnationalism and globalization essays unearth and introduce neglected writers cast new light on established writers and examine texts in relation to their specific Singaporean local historical contexts while also engaging with contemporary issues in Singapore society Singaporean writers are producing work informed by debates and trends in queer studies feminism multiculturalism and social justice work which urgently calls for scholarly engagement This groundbreaking collection of essays aims to set new directions for further scholarship in this exciting and various body of writing from a place that despite being just a small red dot on the global map has much to say to scholars and students worldwide interested in issues of nationalism diaspora cosmopolitanism neoliberalism immigration urban space as well as literary form and content This book brings Singapore literature and literary criticism into greater global legibility and charts pathways for future developments

Education in Singapore Yew-Jin Lee, 2022-04-06 This edited book is a comprehensive resource for understanding the history as well as the current status of educational practices in Singapore It is a one stop reference guide to education and educational issues concerns here There are three sections Part 1 provides a sectorial overview of how education has been organized in this country such as preschool special needs primary and secondary and adult education divisions In Part 2 contributors critically delve into issues and policies that are pertinent to understanding education here such as underachievement leadership language education assessment and meritocracy to question what Part 1 might have taken for granted Part 3 contains the largest number of contributors because it offers a scholarly examination into specific subject

histories This section stands out because of the comparative rarity of its subject matter history of Physical Education Art Music Geography Education etc in Singapore **Les contenus éducatifs vus de près** UNESCO,2020-09-04 *Food and Cooking Skills Education* Anita Tull,2018-01-29 Food and Cooking Skills Education FCSE is a complex mix of policy and practicality educational theory and pedagogy classroom and government policy This book shows how FCSE has been at the centre of a tussle between education and policy for decades It reviews how FCSE has grappled with various significant issues of concern that threaten to marginalise it and pose problems for educational practicalities as expectations are increased but resources are squeezed It assesses the debate about the significance and importance of acquiring practical food and cooking skills in a society where the purchase of ready made food has become commonplace and public knowledge of where our food comes from is noticeably lacking This has contributed to the escalating incidence of diet related diseases and the attendant cost to society and threatened environmental sustainability In turn governments have reacted by proposals to make practical cooking skills a statutory National Curriculum subject as part of the armoury for tackling such costs Based on detailed research conducted across England and Wales as well as comparisons with thirty five other countries or states the author makes recommendations for policy to manage this challenge facing contemporary society
