Carriage Locking Lever 16

When carrying the typewriter in its case, the carriage should be locked in center position by using lever 16 on the right-hand side.

Line Space and Carriage Return Lever 8

This lever returns the carriage from the end of the typing line to the left hand margin, and simultaneously rotates the platen, moving the paper up to the next typing line. When the typewriter is covered, or replaced in its carrying case, always fold the lever back; ease it to the left, and push it down.

Line Space Selector 8

The distance between the lines of typing is determined by lever 8, which has four different positions. Position 0 disengages the platen from the spacing mechanism for typing between the lines or returning to a previous line.

Variable Line Spacing Knob 7

To disengage the platen from the spacing mechanism, press knob 7.

This is used to correct alignment when a sheet that has already been typed on is reinserted in the machine.

Margin Stops 10

To set the left-hand margin: move the carriage until the type guide 13 is immediately below the point at which you wish to begin typing. Depress and slide the left-hand margin stop to the right until it comes to a halt.

To set the right-hand margin: move the carriage to the left until the type guide is immediately below the point at which you wish to finish typing. Depress and slide the right-hand margin stop to the left until it comes to a halt.

Margin Release and Paragraph Indentation Key 4

It is possible to free the carriage to move outside either of the two margin stops by depressing key 4. The same key, if held depressed while returning the carriage to the beginning of the next typing line, will stop the carriage approximately $\frac{1}{2}$ " from the left-hand margin.

Paper Release Lever 15

When pulled forward it loosens the paper under the platen. It is used to adjust the paper to the typing line, vertically and horizontally, after it has been inserted in the machine.

Space Bar 21

In addition to moving the carriage along a space at a time, the space bar may also be used to correct the accidental omission of a letter from a word, without having to erase the entire line. For example: if you have typed - the **vey** good idea - instead of - the **very** good idea - insert the missing r as follows: 1) Erase the word **vey**. 2) Set the carriage against the letter **e** of **the**. 3) Overtyping the **e**, depress the space bar - and holding it down - type the letter **v**. 4) Let the space bar rise. Depress it and again holding it down, type the letter **e**. 5) Type the letter **r** and **y** in the same way.

Using the Tabulator

The tabulator makes it easy to type columns of words or figures by stopping the carriage at the beginning

Body Double Lucy Fischer, 2013-01-15 *Body Double* explores the myriad ways that film artists have represented the creative process In this highly innovative work Lucy Fischer draws on a neglected element of auteur studies to show that filmmakers frequently raise questions about the paradoxes of authorship by portraying the onscreen writer Dealing with such varied topics as the icon of the typewriter the case of the writer-director the authoress and the omnipresent infirm author she probes the ways in which films can tell a plausible story while contemplating the conditions and theories of their making By examining many forms of cinema from Hollywood and the international art cinema to the avant garde Fischer considers the gender age and mental or physical health of fictionalized writers the dramatized interaction between artists and their audiences and critics and the formal play of written words and nonverbal images By analyzing such movies as *Adaptation* *Diary of a Country Priest* *Naked Lunch* *American Splendor* and *Irezumi* Fischer tracks the parallels between film author and character looking not for the creative figure who stands outside the text but for the one who stands within it as corporeal presence and alter ego
