Levy,2016-01-05 A fascinating insightful and wonderfully written exploration of the document Like Henry Petroski's *The Pencil* David Levy's *Scrolling Forward* takes a common everyday object the document and illuminates what it reveals about us both in the past and in the digital age We are surrounded daily by documents of all kinds letters and credit card receipts business memos and books television images and web pages yet we rarely stop to reflect on their significance Now in this period of digital transition our written forms as well as our reading and writing habits are being disturbed and transformed by new technologies and practices An expert on information and written forms and a former researcher for the document pioneer Xerox Levy masterfully navigates these concerns offering reassurance while sharing his own excitement about many of the new kinds of emerging documents He demonstrates how today's technologies particularly the personal computer and the World Wide Web are having analogous effects to past inventions such as paper the printing press writing implements and typewriters in shaping how we use documents and the forms those documents take *Scrolling Forward* lets us see the continuity between the written forms of today and those of the past Skyhorse Publishing as well as our Arcade imprint are proud to publish a broad range of books for readers interested in history books about World War II the Third Reich Hitler and his henchmen the JFK assassination conspiracies the American Civil War the American Revolution gladiators Vikings ancient Rome medieval times the old West and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home Spectrum Handwriting Programme Sue Peet,2000-03 **Write Now** Barbara Getty,Inga Dubay,2005 Italic Letters Inga Dubay,Barbara Getty,1992 The most comprehensive guide to italic calligraphy *Italic Letters* Calligraphy virtually anyone who wants to learn calligraphy and improve handwriting legibility In this age of computer generated letters and forms people admire more than ever the beauty and personal impact of handwritten communication The Practice of Typography Theodore Low De Vinne,1904 *American Printer and Bookmaker* ,1891 **Youth, Heart of Darkness, The End of the Tether** Joseph Conrad,2010-10-07 *Youth* *Heart of Darkness* and *The End of the Tether* make up Conrad's most
