The Code of Photography Vlad Eftenie, Grigorescu Daniela Alexandra, 2024-03-29 Beyond the glam aura of photography beyond the number of social media likes and online virality beyond technique and the so called winning settings of a high performance camera lie hidden the true premises of creating a great image curiosity presence attention to everything around and a unique space time light emotion sequence driving the photographer observer to open up to invisible layers of the world which are eager to be brought to the foreground There are no recipes But an honest guidance into the territory of photography doesn't urge one to access predefined solutions but to discover the bonanza of possibilities within the one who wishes to write with light Vlad Eftenie proposes a deep and poetic approach to the photographic gesture In an endeavor that combines technique aesthetics visual storytelling confession and elements of language that are essential for a sensitive understanding of the field the architect photographer but especially the flâneur who feeds on the city and shoots until he exhausts the vibrations in his plexus becomes a guide in our inner journey towards taking that memorable photograph

Photography, Early Cinema and Colonial Modernity Robert Dixon, 2013-11-15 Photography Early Cinema and Colonial Modernity is not a biography of Frank Hurley the man it is instead an examination of the social life of the many marvellous and meaningful things he made as a professional photographer and film maker The focus of this volume surrounds the media events that encompassed these various creations what Hurley called his synchronized lecture entertainments These media events were at once national and international they involved Hurley in an entire culture industry that was constantly in movement along global lines of travel and communication This raises complex questions both about the authorship of Hurley's photographic and filmic texts which were often produced and presented by other people and about their ontology as they were often in a state of reassemblage in response to changing market opportunities This unique study reimagines from inside the quiet and stillness of the archive the prior social life enjoyed by Hurley's creations amidst the complicated topography of the early twentieth century's rapidly internationalizing mass media landscape As a way to conceive of that space and of the social life of the people and things within it this study uses the concept of colonial modernity
