Us News Report Rankings:

U.S. News & World Report, 2008 **Research Analytics** Francisco J. Cantu-Ortiz, 2017-10-25 The growth of machines and users of the Internet has led to the proliferation of all sorts of data concerning individuals institutions companies governments universities and all kinds of known objects and events happening everywhere in daily life Scientific knowledge is not an exception to the data boom The phenomenon of data growth in science pushes forth as the number of scientific papers published doubles every 9 15 years and the need for methods and tools to understand what is reported in scientific literature becomes evident As the number of academicians and innovators swells so do the number of publications of all types yielding outlets of documents and depots of authors and institutions that need to be found in Bibliometric databases These databases are dug into and treated to hand over metrics of research performance by means of Scientometrics that analyze the toil of individuals institutions journals countries and even regions of the world The objective of this book is to assist students professors university managers government industry and stakeholders in general understand which are the main Bibliometric databases what are the key research indicators and who are the main players in university rankings and the methodologies and approaches that they employ in producing ranking tables The book is divided into two sections The first looks at Scientometric databases including Scopus and Google Scholar as well as institutional repositories The second section examines the application of Scientometrics to world class universities and the role that Scientometrics can play in competition among them It looks at university rankings and the methodologies used to create these rankings Individual chapters examine specific rankings that include QS World University Scimago Institutions Webometrics U Multirank U S News World Report The book concludes with a discussion of university performance in the age of research analytics *The American Legal Profession* Christopher P. Banks, 2023-11-10 This book is a tight and fresh analysis of the American legal profession and its significance to society and its citizens The book s primary objective is to expose and correct the principal misconceptions myths surrounding prelaw study law school admission law school and the American legal profession itself These issues are vitally important to prelaw advisors and instructors in light of the difficult problems caused by the Great Recessions of 2008 and 2020 2021 and the disruptions caused by the COVID 19 pandemic Aimed equally at prelaw advisors and potential law students this book can be used as a supplement in the interdisciplinary undergraduate law related instructional market including courses that cater to majors minors in political science and criminal justice in particular It can also be used in career counselling internships and the extensive paralegal program market New to the Second Edition Expanded coverage to include paralegal and legal assistant training New material on women and minority law students who are transforming law schools and the profession Explores challenges to the legal profession posed by economic recession COVID 19 high tuition rates exploding student loan debt internet technological advances and global competitive pressures including legal outsourcing and DIY legal services Updated data and tables along with all underlying research **Ranking**

Obsession Culture Sienna Vance, AI, 2025-04-07 Ranking Obsession Culture examines the pervasive influence of rankings on legal education impacting student choices and institutional behavior It explores how the pursuit of higher rankings affects where students choose to attend law school and how law schools allocate resources The book uniquely combines law economics psychology and sociology to provide a multifaceted understanding of this phenomenon The book delves into the psychological impact of rankings on prospective students revealing how perceptions of prestige can drive decisions and analyzes how law schools strategically adapt admissions practices to improve their ranking position It also addresses the potential distortions caused by a singular focus on metrics such as a diminished emphasis on teaching quality The text unfolds by first introducing the history of ranking systems then examining the psychological factors driving student fixation and finally exploring the ethical implications of ranking driven behavior The book offers a critical perspective on the role of rankings in shaping decisions within the legal education market By connecting to broader themes in higher education policy organizational behavior and sociology it provides insights relevant to other professional fields This analysis challenges assumptions made by students faculty and administrators advocating for a more holistic understanding of institutional value and the need for comprehensive assessment methods beyond just rankings Graduate Debt Free David F.

Shutler, 2023-08-14 Escape the matrix of student loan debt In his new book Dave Shutler analyzes twelve faulty assumptions about obtaining a higher education and shows how they can lead to debilitating college debt Analogizing to the two realities in the Matrix movies he reveals underlying facts about the assumptions to high schoolers and their parents These assumptions range from deciding whether to attend college in the first place to the importance of selecting a major to how to minimize college living costs This book is a systematic guide to the many misconceptions that students hold in the college application process Shutler analyzes each misconception showing how it can lead to debt and then provides strategies to escape that debt Dave Shutler sheds light on scholarships and other significant funding sources that are available for the enterprising student and explores the federal laws that govern student debt He identifies underlying policy decisions that have contributed to the 1.7 trillion federal debt burden and offers several strategies to help individuals navigate student debt without succumbing to it Through planning students can take charge of their education and escape the matrix of ever increasing college costs *Optimizing Widely Reported Hospital Quality and Safety Grades* Armin Schubert, Sandra A.

Kemmerly, 2022-07-26 This practical engaging book provides concise real life tested guidance to healthcare teams concerned with widely reported and incentivized hospital quality and safety metrics offering both a conceptual approach and specific advice and frameworks for reviewing quality and safety numerator events from the perspective and experience of clinicians and administrators working within the Ochsner Health System The text opens with the rationale for closely managing widely including publicly reported hospital patient quality and safety measures Attention is given to the financial implications of quality performance with respect to both penalties and payment incentives used by payer organizations It then reviews the

major public ratings and their relevant methodologies including CMS AHRQ and NSHN In addition it addresses ratings by proprietary organizations that have a large member clientele such as Vizient USNews Leapfrog Healthgrades CareChex and others Each metric for example the AHRQ Patient Safety Indicators PSIs and other metrics such as readmission rate risk adjusted complications hospital acquired conditions and mortality is addressed in a stand alone chapter For each the importance approach to review opportunity for optimization and engagement of healthcare staff are reviewed and discussed Overall this book forefronts the benefits of a collaborative approach within a health system The concurrent review process multidisciplinary collaboration among quality improvement clinical documentation coding and medical staff personnel are all emphasized Also described in detail is the approach to and specific opportunities for medical staff education and engagement Additional key topics include Engagement of the Medical Staff and House Staff i e residents and other trainees Futile Care Surgical Quality Improvement NSQIP Nursing Provider Partnership and Translation of Data Review to Successful Performance Improvement Specialty chapters on pediatric neurologic and transplant quality metrics are also included

The Lawyer Bubble Steven J Harper,2016-03-08 A noble profession is facing its defining moment From law schools to the prestigious firms that represent the pinnacle of a legal career a crisis is unfolding News headlines tell part of the story the growing oversupply of new lawyers widespread career dissatisfaction and spectacular implosions of pre eminent law firms Yet eager hordes of bright young people continue to step over each other as they seek jobs with high rates of depression life consuming hours and little assurance of financial stability The Great Recession has only worsened these trends but correction is possible and now imperative In The Lawyer Bubble Steven J Harper reveals how a culture of short term thinking has blinded some of the nation s finest minds to the long run implications of their actions Law school deans have ceded independent judgment to flawed U S News World Report rankings criteria in the quest to maximize immediate results Senior partners in the nation s large law firms have focused on current profits to enhance American Lawyer rankings and individual wealth at great cost to their institutions Yet wiser decisions being honest about the legal job market revisiting the financial incentives currently driving bad behavior eliminating the billable hour model and more can take the profession to a better place A devastating indictment of the greed shortsightedness and dishonesty that now permeate the legal profession this insider account is essential reading for anyone who wants to know how things went so wrong and how the profession can right itself once again

Performance Richard L. Alfred,2012 *Organizational Performance Core Concepts Conceptions of Performance Thinking Differently* *Get In, Get Connected, Get Hired* Brian Precious,2016-05-31 Make the Most of Your MBA Plan Earning an MBA can be a risky proposition Some students effectively leverage their education to transform their careers whereas others waste time and money pursuing a degree that doesn t adequately align with their career aspirations This book is designed to help prospective and current MBA students and even those who have already graduated and are trying to find their way get the most from their degree find the right business school in accordance with their career goals

Academic Brands

Mario Biagioli,Madhavi Sunder,2022-07-21 Explores the rise of the brand as a medium through which the modern university represents and remakes itself

Find a Way Or Make One

Alma J.

Carten,2021 Clark Atlanta University Whitney M Young Jr School of Social Work was founded in 1920 in Atlanta Georgia as the Atlanta School of Social Work to prepare social workers for practice in underserved black neighborhoods Spearheaded by black scholars and progressive whites during an era of racial segregation 2020 marks its centennial as the first accredited social work program at a historically black college and university In this book social work professor Alma J Carten describes the School s transitions from its beginnings amid the pervasive racism sanctioned by Supreme Court rulings in the Dred Scott and Plessy v Ferguson cases through the decades of 20th century progressive civil rights reforms and into the new conservatism of the 21st century Referencing archival documents Carten illustrates the School s commitment to the democratic principles of the profession despite the blatant racism of the segregated South and the less visible structural inequalities following desegregation from which mainstream social work education was not immune The book describes the influence of iconic thought leaders on the School s culture and academic programs beginning with Jesse O Thomas s speech on the need for a black school of social work given from the segregated section of the 1920 National Conference on Social Work and including W E B DuBois Atlanta University Studies that pioneered the model of social progress powered by science E Franklin Frazier and Forrester B Washington who championed black social work and the integration of race critical content in the curriculum of all schools and Whitney M Young Jr who chastised social workers for their waning interest in advocacy for marginalized populations and encouraged them to become politically active Carten examines the evolution of the School within the context of changes in US social welfare policy CSWE accrediting standards and NASW Code of Ethics Highly readable the book brings to light the under reported contributions of HBCU social work programs to social work education and it thoughtfully engages with the School s efforts to legitimize the Afrocentric perspective and the humanistic values embraced by HBCU social work programs

The Internationalization of Law and Legal Education Jan Klabbers,Mortimer Sellers,2009-01-29 The internationalization of commerce and contemporary life has led to a globalization of legal standards and practices The essays in this text explore this new reality and suggest ways in which the new legal order can be made more just and effective

Handbook on Corruption in Higher Education Elena Denisova-Schmidt,Philip G.

Altbach,Hans de Wit,2025-09-10 This insightful Handbook provides an overview of corruption within the context of higher education Through a variety of international case studies theoretical frameworks and methodologies it examines the

underlying issues involved in corruption as well as the damaging impact on scholarly cultures and the academic enterprise

Big-Time Sports in American Universities Charles T. Clotfelter, 2019-02-21 For almost a century big time college athletics has been a wildly popular but consistently problematic part of American higher education The challenges it poses to traditional academic values have been recognized from the start but they have grown more ominous in recent decades as cable television has become ubiquitous commercial opportunities have proliferated and athletic budgets have ballooned In the second edition of his influential book Big Time Sports in American Universities Clotfelter continues to examine the role of athletics in American universities building on his argument that commercial sports have become a core function of the universities that engage in them Drawing on recent scandals on large scale college campuses and updates on several high profile court cases Clotfelter brings clear economic analysis to the variety of problems that sports raise for university and public policy providing the basis for the continuation of constructive conversations about the value of big time sports in higher education

Higher Education in the United States James J. F. Forest, Kevin Kinser, 2002-06-21 Surveys the changing landscape of American higher education from academic freedom to virtual universities from campus crime to Pell Grants from the Student Privacy Act to student diversity In the years following World War II college and university enrollment doubled students revolted faculty unionized and community colleges evolved Tuition and technology soared as did the number of first generation minority and women students These changes radically transformed the American system of postsecondary education Today that system is in trouble Its aging professoriate prepares for retirement but low academic salaries can no longer attract the best minds to replace them A flood of corporate dollars funds commercial research but money for basic research the seedbed of American scientific preeminence has dried up Colleges and universities also face heated competition with for profit education providers for students faculty and external financial support along with the costs of providing remedial education to growing numbers of students who are unprepared for postsecondary education Higher Education in the United States provides a comprehensive analysis of these issues and others that scholars and practitioners of higher education study discuss and grapple with on a daily basis

Critical Essays in Sport Management Andy Gillentine, Robert Baker, Jacquelyn Cuneen, 2017-09-29 This collection of essays written by a number of respected sport management scholars addresses many of the challenges and issues facing today's sport management academic programs It is intended to begin a professional and scholarly discussion to identify the best or at least the most logical paths to follow for sport management programs and the industry with which they are so closely aligned Contributors invited to participate based on their recognized areas of expertise address specific topics using their own unique voices and writing styles In the ebook version essays link to video introductions by the authors and to online discussion forums where readers can respond to the issues presented in the essays From the Preface The field of sport management stands at an academic crossroads the essays in this book address the following and other emerging questions Should our successful field of study continue to

model other disciplines and perpetuate their successes as well as their shortcomings or should we determine our own specific model for academic success How are we doing in preparing future sport managers to perform in the industry and on the global stage Where do we belong in the scheme of academe The book's goal is to generate discussion among sport management professors industry professionals who serve as adjunct faculty and participate on sport management program advisory boards doctoral students who intend to teach in sport management programs and others who explore and critique higher education in general

University Rankings Jung Cheol Shin, Robert K. Toutkoushian, Ulrich Teichler, 2011-06-06 This ground breaking and exhaustive analysis of university ranking surveys scrutinizes their theoretical bases methodological issues societal impact and policy implications providing readers with a deep understanding of these controversial comparators The authors propose that university rankings are misused by policymakers and institutional leaders alike They assert that these interested parties overlook the highly problematic internal logic of ranking methodologies even as they obsess over the surveys assessment of their status The result is that institutions suffer from short termism realigning their resources to maximize their relative rankings While rankings are widely used in policy and academic discussions this is the first book to explore the theoretical and methodological issues of ranking itself It is a welcome contribution to an often highly charged debate Far from showing how to manipulate the system this collection of work by key researchers aims to enlighten interested parties

Access and Expansion Post-Massification Ben Jongbloed, Hans Vossensteyn, 2015-12-14 This edited collection addresses the crucial issues emerging from the ongoing expansion of higher education focusing on how national systems of higher education can respond further expand when traditional routes to have been largely exhausted

The Last Professors Frank Donoghue, 2018-04-03 What makes the modern university different from any other corporation asked Columbia's Andrew Delbanco recently in the New York Times There is more and more reason to think less and less he answered In this provocative book Frank Donoghue shows how this growing corporate culture of higher education threatens its most fundamental values by erasing one of its defining features the tenured professor Taking a clear eyed look at American higher education over the last twenty years Donoghue outlines a web of forces social political and institutional dismantling the professoriate Today fewer than 30 percent of college and university teachers are tenured or on tenure tracks and signs point to a future where professors will disappear Why What will universities look like without professors Who will teach Why should it matter The fate of the professor Donoghue shows has always been tied to that of the liberal arts with the humanities at its core The rise to prominence of the American university has been defined by the strength of the humanities and by the central role of the autonomous tenured professor who can be both scholar and teacher Yet in today's market driven rank and ratings obsessed world of higher education corporate logic prevails faculties are to be managed for optimal efficiency productivity and competitive advantage casual armies of adjuncts and graduate students now fill the demand for teachers Bypassing the distractions of the culture wars and other crises Donoghue sheds light on the structural changes in

higher education the rise of community colleges and for profit universities the frenzied pursuit of prestige everywhere the brutally competitive realities facing new Ph D s that threaten the survival of professors as we ve known them There are no quick fixes in *The Last Professors* rather Donoghue offers his fellow teachers and scholars an essential field guide to making their way in a world that no longer has room for their dreams First published in 2008 *The Last Professors* have largely had its arguments borne out in the interim as the percentage of courses taught by tenured professors continues to dwindle This new edition includes a substantial Preface that elaborates on recent developments and offers tough but productive analysis that will be crucial for today s academics to heed

Social Justice and Community College Education Bryan Reece, 2021-07-05

This book explores the central role community colleges play in American social justice The United States has long standing social and cultural structures that perpetuate inequality along race ethnicity and income lines The primary role of American community colleges is to disrupt these structures on behalf of the students we serve In this sense community colleges are called to play a subversive role in contemporary society but it is a good kind of subversion *Social Justice and Community College Education* makes four very important contributions to this conversation First the book helps us quantify and understand the size and dimension of the equity gaps in higher education by tracking ten specific student groups from historically underserved communities Second the book summarizes best practices research and literature with regard to pedagogy services programs and leadership in community colleges presenting practical strategies for implementation Third through a national survey of community college personnel the book covers significant new territory in the discussion of work we need to do collaboratively as community colleges Fourth this book captures the unique and special mission of American community colleges Our work is the work of social justice and we carry this work out in society at a greater volume with greater intentionality and through greater expertise than any other sector of higher education In this arena community colleges should lead

Us News Report Rankings Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever.
