*Oil Culture* Ross Barrett, Daniel Worden, 2014-10-15 In the 150 years since the birth of the petroleum industry oil has saturated our culture fueling our cars and wars our economy and policies But just as thoroughly culture saturates oil So what exactly is oil culture This book pursues an answer through petrocultural history in literature film fine art wartime propaganda and museum displays Investigating cultural discourses that have taken shape around oil these essays compose the first sustained attempt to understand how petroleum has suffused the Western imagination The contributors to this volume examine the oil culture nexus beginning with the whale oil culture it replaced and analyzing literature and films such as *Giant* *Sundown* Bernardo Bertolucci's *La Via del Petrolio* and Ben Okri's *What the Tapster Saw* corporate art museum installations and contemporary photography and in apocalyptic visions of environmental disaster and science fiction By considering oil as both a natural resource and a trope the authors show how oil's dominance is part of culture rather than an economic or physical necessity *Oil Culture* sees beyond oil capitalism to alternative modes of energy production and consumption Contributors Georgiana Banita U of Bamberg Frederick Buell Queens College Gerry Canavan Marquette U Melanie Doherty Wesleyan College Sarah Frohardt Lane Ripon College Matthew T Huber Syracuse U Dolly Jrgensen Ume U Stephanie LeMenager U of Oregon Hanna Musiol Northeastern U Chad H Parker U of Louisiana at Lafayette Ruth Salvaggio U of North Carolina Chapel Hill Heidi Scott Florida International U Imre Szeman U of Alberta Michael Watts U of California Berkeley Jennifer Wenzel Columbia University Sheena Wilson U of Alberta Rochelle Raineri Zuck U of Minnesota Duluth Catherine Zuromskis U of New Mexico *Living Oil* Stephanie LeMenager, 2014 Drawing on novels film and photographs *Living Oil* offers a literary and cultural history of modern environmentalism and petroleum in America **New Wests and Post-Wests** Paul S. Varner, 2013-10-03 The writers of these chapters are often working with changing assumptions about literary and media interpretations of an American West Here we see critical approaches to a West that never was a West of myth so enduring that the myth dominates nearly all artistic representation about this place that never was In this collection we see critical approaches to a New West a West that is a state of mind not a geographical place but a mythic space with no boundaries and no political inevitabilities These New Western studies accept the idea of a West that includes Canada Mexico Alaska and in the case of the US every geographic and historical point west of the historic founding settlements The West we study today is a post West an idea of the West past the traditional views of an old West dominated by white US nationalism and gendered as uncompromisingly masculine The idea itself of a single West no longer holds validity We now understand that all renderings of the West are renderings of multiple Wests Wests constructed by American nationalists Wests constructed by EuroAmerican writers and filmmakers Wests constructed by native peoples or Wests constructed outside the geographical boundaries of the US This collection presents an eclectic array of new scholarship ranging freely over the New Wests and Post Wests dealing with issues such as the literature of a 1950s California West eco crime genre fiction the West

A vast number of studies have documented the economic and geological effects of oil production but the impact of boom and bust cycles on individuals and communities has received less attention Boom or Bust remedies this gap by highlighting the personal experiences of those directly affected in an economy dominated by oil and natural gas production The Permian Basin is one of the largest oil producing regions in the United States People who live there have benefited from explosive growth only to see opportunities vanish with sudden industry downturns In 2016 the National Endowment for the Humanities funded a grant for the study and collection of energy narratives in this economically volatile region Boom or Bust derives from that community initiative and offers a unique contribution to the developing field of energy humanities The oil field industry may seem to be all about numbers but as Boom or Bust demonstrates residents of oil and gas country whether they work in the oil field or not are at the mercy of an ever shifting economy When the price of oil rises companies move in and newcomers flood the area expanding the employment force And as the population booms so does the infrastructure of cities When prices drop though families must make difficult choices whether to stay put or follow the oil to another location With the ensuing declines in population small businesses close their doors and unemployment levels rise Despite the inevitable declines and despite the increase in alternative energy resources many West Texans feel a sense of pride that borders on patriotism Boom or Bust reveals the full complexity of boomtown culture **Paul Thomas**

a brash self anointed Indiewood auteur to one of his generation's most distinctive voices has been one of the most remarkable career trajectories in recent film history. From early efforts to emulate his cinematic heroes to his increasingly singular late films, Anderson has created a body of work that balances the familiar and the strange, history and myth. Viewers feel perpetually off balance, unsure of whether to expect a pitch black joke or a moment of piercing emotional resonance. This book provides the most complete account of Anderson's career to date, encompassing his varied side projects and unproduced material, his personal and professional relationships with directors such as Jonathan Demme, Robert Altman, and Robert Downey Sr., and his work as a director of music videos for Fiona Apple, Joanna Newsom, and Haim. Ethan Warren explores Anderson's recurring thematic preoccupations: the fraught dynamics of gender and religious faith, biological and found families, and his native San Fernando Valley, as well as his screenwriting methods and his relationship to his influences. Warren argues that Anderson's films conjure up an alternate American history that exaggerates and elides verifiable facts in search of a heightened truth marked by a deeper level of emotional hyperrealism. This book is at once an unconventional primer on Anderson's films and a provocative reframing of what makes his work so essential.
