*Being Youngest* Jim Heynen, 1997-11-15 It's not as if grown ups will let you be average if you're youngest If you're not fat they call you Skinny or Bones If you're not skinny they call you Hippo or Tubby Henry and Gretchen are the youngest children in two Iowa farm families Being youngest they get left out blamed ignored and picked on all the time At least that's how being youngest they tend to see it In a summer filled with change Henry and Gretchen swap stories become friends fight with their older brothers and sister and get to know the odd

old couple down the road Between the old fan s habit of plucking nails out of the ground and the old woman s weird children who are kept locked in a room upstairs they are strange enough But are they just strange or could the old folks actually be dangerous Jim Heynen s story of one farm summer has fun humor some scary moments and many wonderful insights into what being youngest means Before Henry and Gretchen went their separate ways they didn t compare the stories they were going to tell at home They did agree they d tell something but not all They both had learned to hide the best part They knew that to keep a secret you had to hide it down a blind alley of stories that are only part of what happened You didn t want to pretend that nothing happened Too much silence was like honey to a hungry bear and grown ups were bound to start pawing around in it It was best to throw them a few scraps of the truth to keep them away from the real honey of what you did

On Food David Schildberger,2023-06-19 Free thinking unconstrained by facts The book is based on the thesis that we live in a world of abundance full of natural riches and cultural artifacts full of human intellect and powerful technologies Our thinking however is dominated by the opposite the notion of scarcity The limits of nature act as an inevitable necessity In his book David Schildberger adopts a novel approach to the subject of resources with the help of intelligent instruments that introduce new foods such as chocolate made from cocoa cell cultures and even a fruit bearing vine raised far from a vineyard With his imagined scenarios the author invites the reader to dare stretch their intellectual imaginations and ultimately presents nature as a contingent Conceptual models on the subject of nature and alternative ways of producing food
