considered one of the most important scientific studies published annually by Al Zaytouna Centre The Report is rich with information analyses tables and charts besides strategic visions and future outlooks It is published for the sixth year in a row and it has become one of the major sources for experts and those interested in the Palestinian issue It provides a comprehensive coverage of the developments of the Palestinian issue that happened over a year while abiding by strict scientific and professional standards The Report is 444 medium sized pages It is co authored by 15 researchers specialized in the Palestinian issue reviewed by four consultants and edited by Dr Mohsen M Saleh The PSR 2010 11 stresses that the uprisings witnessed in the Arab world since early 2011 especially in Egypt will have a direct impact on the Palestinian issue The impact will most likely be positive if the uprisings achieved their goals and yielded political regimes which express the real will of the Arab peoples However the Report notes that the internal affairs would most probably be the primary concern during the coming period Regarding the inter Palestinian reconciliation PSR 2010 11 asserts that the reconciliation agreement signed in Cairo last May still needs more serious steps to end the division and achieve real reconciliation on the ground It needs to resolve many obstacles through cooperation between the different parties away from external interventions and pressures On the Israeli level the Report mentions that 2010 has continuously witnessed the inclination of the Israeli society towards the extreme right It further notes the absence of any breakthroughs in 2011 especially in the light of Israel s rejection for the negotiations with President Mahmud Abbas The agreement signed with Hamas and the PA s attempts to obtain international recognition of the Palestinian State in September 2011 hindered such negotiations On the international level the PSR says that the international diplomatic efforts towards the Palestinian issue have failed again in 2010 They could not achieve any significant progress regarding the peace settlement track or the siege imposed on the Gaza Strip Moreover PSR 2010 11 includes a large number of figures and statistics on Israeli violations on different levels During 2010 98 Palestinians were killed in the West Bank and Gaza Strip including Jerusalem by Israeli forces and settlers while 967 Palestinians and international solidarity activists were wounded On the other hand Israel s internal security service mentioned that during 2010 9 Israelis were killed and 28 were wounded in operations carried out by the Palestinians Concerning settlement building the Report shows that despite the 10 month Israeli moratorium on settlement building Israel established 1819 buildings apartments in 133 settlements all over the West Bank including Jerusalem in addition to 1433 mobile homes caravans PSR 2010 11 also discusses the increased Israeli attacks on the Islamic and Christian holy sites in Jerusalem and historic Palestine during 2010 It further shows that the developments during that year revealed that the Judaization of Jerusalem has become the primary battle for Israel due to the obsession with the Jewishness of the state dominating the Israeli mind Concerning demographic indicators PSR 2010 11 mentions that at the end of 2010 the number of Palestinians around the world was around 11 14 million people More than half of them i e 5 75 million 51 6% live in Diaspora while the rest i e 5 39 million 48 4% live in historic Palestine The latter are distributed by 1 28 million people in the

territories occupied in 1948 and 4 11 million in the 67 territories The Report mentions that if the current growth rates of the Palestinians and the Jews persist the number of Palestinians and Jews will become on par by 2017 where each will reach around 6 53 million Thus in 2020 around 49 2% of the population will be Jews as their number will reach 6 87 million compared to 7 09 million Palestinians Regarding the economic indicators in the West Bank and the Gaza Strip the Report shows that events during 2010 has not affected the direct dependence of the Palestinian economy on the Israeli economy In addition the isolation of the Palestinian economy from the outside world continued due to the Israeli control of all international exits and Palestinian border crossings besides the Palestinian foreign trade PSR 2010 11 also refers to the enormous difference between the Palestinian economy in the West Bank and the Gaza Strip on one hand and the Israeli economy on the other Thus it shows for example that in 2010 the Palestinian GDP per capita was 1500 around 1925 in the West Bank and 877 in the Strip compared to 28 500 in Israel In addition the GDP amounted to 5 73 billion for the Palestinians compared to 217 13 billion for the Israelis *DREAMWEAVER MX,* Gareth Downes-Powell,2003-01-02 This title is for Dreamweaver MX users who want to take their PHP sites beyond the functions provided by server behaviours It teaches PHP from the point of view of a Dreamweaver user <u>Human Rights of Older People</u> Claudia Martin,Diego Rodríguez-Pinzón,Bethany Brown,2015-07-11 This book focuses on descriptions of the developments in legal frameworks and policies regarding the human rights of older persons First it covers the policies adopted and practices developed at the universal system particularly within the sphere of the United Nations Second it includes a side by side comparison of the work of regional human rights mechanisms which have picked up some momentum in the past decade Through its inclusion of law policy and current processes the widest net possible has been cast to collect a descriptive resource for advocates Overall we hope that this book contributes to a better understanding of the current limitations and possibilities that international institutions offer to uphold the human rights of older persons We expect that this information will allow states and other policy makers to move forward with the international recognition of the human rights of older persons We know this is only a first effort in compiling and reporting the standards that are being produced by different international institutions But we have no doubt that many others will follow with their expert analysis of these emerging standards and that the ongoing discussion will finally crystalize in international human rights binding instruments explicitly recognizing the universal rights of older persons **Programming PHP** Kevin Tatroe,Peter MacIntyre,2020-03-12 Why is PHP the most widely used programming language on the web This updated edition teaches everything you need to know to create effective web applications using the latest features in PHP 7 4 You ll start with the big picture and then dive into language syntax programming techniques and other details using examples that illustrate both correct usage and common idioms If you have a working knowledge of HTML authors Kevin Tatroe and Peter MacIntyre provide many style tips and practical programming advice in a clear and concise manner to help you become a top notch PHP programmer Understand what s possible when you

use PHP programs Learn language fundamentals including data types variables operators and flow control statements Explore functions strings arrays and objects Apply common web application techniques such as form processing data validation session tracking and cookies Interact with relational databases like MySQL or NoSQL databases such as MongoDB Generate dynamic images create PDF files and parse XML files Learn secure scripts error handling performance tuning and other advanced topics Get a quick reference to PHP core functions and standard extensions
