

# FIRST LANGUAGE ENGLISH (US)

## Paper 0587/11 Reading Passage (Core)

### Key Messages

This paper was mostly assessed for Reading, although there were 10 marks available for writing in Question 2.

- 1 In responding to all questions, candidates are advised to consider carefully the specific implications of key words within the question or within the phrase under analysis.
- 2 Question 1(a) is a 5 mark language question assessing an understanding of the meanings of language choices. In this and similar questions in future papers, it is important to note that each component of the question requires two separate words in the question to be explained (1 mark for each explanation) and that marks will not be awarded to responses that attempt to define a word by using a different grammatical form of the same word.
- 3a Question 1(b) is a 5 mark language question assessing an understanding of the effects of language choices. In this and similar questions in future papers, responses should attempt to explain their choice of words/concepts for aspects identified in the question (in this case, a sense of excitement). This question does not require a paraphrase of the words chosen as this skill is tested elsewhere in the paper.
- 3b When attempting to explain the effects of the writer's use of language for Question 1(b), candidates should be aware that merely repeating figures of speech and other literary devices, without a further attempt at explanation, is insufficient for the award of a mark. Typically, it is expected that answers to this task will attempt to give developed explanations of how an effect is achieved. Answers in the form of 'The phrase suggests the writer's sense of excitement because it is exciting' are insufficient as they lack explanations.
- 4 An informal or colloquial register was appropriate for the writing task but responses should also show awareness of the need to demonstrate an ability to write accurately, using standard English, in order to have access to the highest bands of the Mark Scheme.

The above points will be considered in greater detail in the following sections of this report.

### Overall Comments

The passage about a visit to the fireworks of Piers proved to be generally accessible and responses gave some evidence of positive engagement with it. There was very little indication that responses suffered from timing problems and most were of adequate length for all questions. The most successful responses were those that paid attention to the precise requirements of specific questions. There was also very little evidence of serious misunderstanding of the reading passage. As in previous sessions, there was a comparatively large number of responses which did not achieve the full total of marks available for some tasks as they either did not respond to a specific detail required by the question or included an irrelevant point in their answer. Clearly as a result of misreading the wording of the question rather than from misunderstanding the passage, it is important to note that this comment applied to both Questions 1 and Question 2.

Presentation and handwriting were generally of a good standard and nearly all responses gave clear evidence that candidates were taking the examination seriously and trying their very best to do well.
