

Olivetti Underwood Lettera 33

Carriage Locking Lever 16

When carrying the typewriter in its case, it is wise to lock the carriage in the central position using lever 16 on the right-hand side.

Line Space and Carriage Return Lever 6

This lever is used to return the carriage from the end of a typing line, and simultaneously to move the paper up ready for the next line. When you cover the typewriter, or put it in its case, always move the lever back, ease it to the left, and then push it into the down position.

Line Space Selector 8

The distance between the lines of typing is determined by lever 8, which has four different positions. Position 3 disengages the platen from the spacing mechanism for typing between the lines or returning to a previous line.

Variable Line Spacing Knob 7

To disengage the platen from the spacing mechanism, press knob 7.

Margin Stops 10

To set the left-hand margin - slide the carriage until the type guide is immediately below the point at which you wish to begin typing. Move the left-hand margin stop to the right until it comes to a halt.

To set the right-hand margin - slide the carriage to the left until the type guide is immediately below the point at which you wish to finish typing. Move the right-hand margin to the left until it comes to a halt.

Margin Release 4

It is possible to free the carriage to move outside either of the two margin stops by pressing key 4. The same key, if kept depressed whilst bringing the carriage back to the beginning of the next typing line, will stop the carriage approximately $\frac{1}{8}$ " from the left-hand margin.

Paper Release Lever 15

When pulled forward it loosens the paper under the platen. It is used for adjusting the paper square to the typing line, after it has been inserted in the machine.

Space Bar 21

As well as moving the carriage along a space at a time, the space bar can also be used to correct the accidental omission of a letter from a word, without having to erase the whole line. For example, if you have typed, **...a very god idea...** instead of **...a very good idea...** insert the missing **...o...** as follows: 1) Erase the word **god**; 2) Set the carriage against the **y** of **very**; 3) Overtyping the **y**, depress the space bar and, holding it depressed, type the letter **g**; 4) Let the space bar rise, depress it and (again holding it depressed) type the letter **o**; 5) Type **e** and **d** in the same way.
