Catalytic Safety Heater

EFFECTIVE DATE: JANUARY 2009

Your Olympian™ heater is designed and built to provide years of comfortable, radiant heat and economical LP Gas consumption. In order to minimize installation problems and maximize your heating comfort, read all of these instructions carefully and completely.

Olympian heaters produce mostly radiant heat as a result of a flameless catalytic combustion process. Its efficiency is high because combustion takes place at relatively low temperatures.

The wavelength of the radiant heat produced by Olympian heaters is particularly effective for creating a feeling of warm comfort similar to solar radiation. The sun is an excellent example of radiant heat transfer, because it transmits energy through space, releasing heat when its rays strike objects and people.

Like the sun, Olympian heaters radiate heat directly to people, floors, walls and other objects without heating the air first, so warmth is felt immediately. Radiant heat is absorbed by objects and then emitted into the air to heat the surrounding area. Therefore, your Olympian heater should be oriented to direct its heat rays toward the space to be heated, much like a floodlight is positioned to illuminate a desired area. Avoid placing furniture or objects in a place that will block the heat rays.

Olympian™

Your Olympian heater has undergone rigorous safety, performance and quality assurance testing before leaving the factory. It is designed to deliver years of trouble-free service.

The INSTALLER must leave this set of instructions with the owner after installation is completed. (IMPORTANT: Installers must have the owner fill out and mail the warranty card supplied with each heater.) The OWNER should read this entire manual to be assured of a satisfactory installation and to fully understand operating procedures.

Keep these instructions in a safe, convenient place for future reference.

CALIFORNIA PROPOSITION 65 WARNING: Combustion by-products produced when using this product contain chemicals known to the State of California to cause cancer and/or birth defects or other reproductive harm.

Installation and Operating Instructions

This is a heating appliance. Any safety screen or guard removed for servicing must be replaced prior to operating the heater.

Warning

Any changes or alterations to this heater or its controls (or attempts to clean the catalytic pad) can result in damage, defective operation, fire, explosion, asphyxiation and/or harm.
