Getting Started

Inserting Batteries

- 1 Lightly press down on the arrow and slide the battery cover open.
- 2 Insert two size-AAA alkaline batteries, observing the correct polarity.
- 3 Close the battery cover completely. Time/Date screen appears. The hour indicator flashes, indicating the start of the Time/Date setup process. (See "Setting Time/Date" for details.)

An optional Ni-MH Rechargeable Battery from Olympus can be used for the recorder.

Replacing Batteries

When appears on the display, replace the batteries as soon as possible. Size-AAA alkaline batteries are recommended. When the batteries are depleted, appears on the display and the recorder shuts off. It is recommended to set the HOLD switch to the HOLD position before you replace batteries to maintain the current settings (Time/Date, etc.). For your convenience, the recorder also logs the current settings in nonvolatile memory at hourly intervals.

Standby Mode and Display Shut Off

If the recorder is stopped or paused for 5 minutes or longer during recording or playing, it goes into Standby (power-save) mode, and the display shuts off. To exit Standby mode and turn on the display, press any button.

Setting Time/Date (TIME)

If you have set the time and date information as to when a sound file was recorded is stored automatically with that file. The time and date must be set to enable management of files in folder 5, for the alarm playback function, and for the timer recording.

When you install batteries for the first time or each time you replace the batteries, the hour indication will flash. In such a case, be sure to set the time and date by following steps 5 through 9 described below.

- 1 Press and hold the MENU button for 1 second or longer.
- 2 Press the STOP or PLAY button until "TIME" flashes on the display.
- 3 Press the ENTER button. The hour indicator flashes.
- 4 Press the STOP or PLAY button to set the hour.
- 5 Press the ENTER button to accept the minute. The minute indicator flashes. Pressing the - button enables the hour setting again.
- 6 Press the STOP or PLAY button to set the minute. Repeat steps 5 and 6 to continue to set the year, month and date in the same way.
- 7 After setting the date, press the ENTER button. This completes the time/date setup procedure.
- 8 Press the MENU button.

- You can switch the time indication between the 12-hour system and the 24-hour system by pressing the DISPLAY button while you are setting the hour or minute.
- You can change the order of the date indication by pressing the DISPLAY button while you are setting the year, month, or day. (Example: February 14, 2005)

2 HRS → 12 HRS → 24 HRS → 2 HRS
