The Men with the Movie Camera Philip Cavendish, 2013-12-01 Unlike previous studies of the Soviet avant garde during the silent era which have regarded the works of the period as manifestations of directorial vision this study emphasizes the collaborative principle at the heart of avant garde filmmaking units and draws attention to the crucial role of camera operators in creating the visual style of the films especially on the poetics of composition and lighting In the Soviet Union of the 1920s and early 1930s owing to the fetishization of the camera as an embodiment of modern technology the cameraman was an iconic figure whose creative contribution was encouraged and respected Drawing upon the film literature of the period Philip Cavendish describes the culture of the camera operator charts developments in the art of camera operation and studies the mechanics of key director cameraman partnerships He offers detailed analysis of Soviet avant garde films and draws comparisons between the visual aesthetics of these works and the modernist experiments taking place in the other spheres of the visual arts

Blake's 'Jerusalem' As Visionary Theatre Susanne M. Sklar, 2011-10-20 Before etching Jerusalem William Blake wrote about creating the grandest poem that this world contains Blake's avowed intention in constructing the work was to move readers from a solely rational way of being called Ulro to one that is highly imaginative called Eden Eternity with each word chosen to suit the mouth of a true Orator Rational interpretation is of limited use when reading this multifaceted epic and its non linear structure presents a perennial challenge for readers Susanne Sklar engages with the interpretive challenges of Jerusalem by considering it as a piece of visionary theatre an imaginative performance in which characters settings and imagery are not confined by mundane space and time allowing readers to find coherence within its complexities With his characters Blake's readers can participate imaginatively in what Blake calls the Divine Body the Saviour's Kingdom a way of being in which all things interconnect spiritually ecologically socially and erotically Imaginatively engaging with Jerusalem involves close textual reading and analysis The first part of this book discusses the notion of visionary theatre and the theological literary and historical antecedents of Jerusalem's imagery characters and settings Particular attention is paid to the theological context of Blake's Jesus the Divine Body and Jerusalem the heroine of his poem This prepares the ground for a scene by scene commentary of the entire illuminated work Jerusalem tells the story of Albion's fall many rescue attempts escalating violence and oppression and a surprising apocalypse in which all living things awakening are transfigured in ferocious forgiveness
