Stone, Robert P. Stoker, 2015-09-18 For decades North American cities racked by deindustrialization and population loss have followed one primary path in their attempts at revitalization a focus on economic growth in downtown and business areas Neighborhoods meanwhile have often been left severely underserved There are however signs of change This collection of studies by a distinguished group of political scientists and urban planning scholars offers a rich analysis of the scope potential and ramifications of a shift still in progress Focusing on neighborhoods in six cities Baltimore Chicago Denver Los Angeles Phoenix and Toronto the authors show how key players including politicians and philanthropic organizations are beginning to see economic growth and neighborhood improvement as complementary goals The heads of universities and hospitals in central locations also find themselves facing newly defined realities adding to the fluidity of a new political landscape even as structural inequalities exert a continuing

influence While not denying the hurdles that community revitalization still faces the contributors ultimately put forth a strong case that a more hospitable local milieu can be created for making neighborhood policy In examining the course of experiences from an earlier period of redevelopment to the present postindustrial city this book opens a window on a complex process of political change and possibility for reform

**From Treaty Peoples to Treaty Nation** Greg Poelzer,Ken S. Coates,2015-07-28 Canada is a country founded on relationships and agreements between Indigenous peoples and newcomers Although recent court cases have upheld Aboriginal title rights the cooperative spirit of the treaties is being lost as Canadians engage in endless arguments about First Nations issues Each new court decision adds fuel to the debate raging between those who want to see an end to special Aboriginal rights and those who demand a return to Aboriginal sovereignty Greg Poelzer and Ken Coates breathe new life into these debates by looking at approaches that have failed and succeeded in the past and offering all Canadians from policy makers to concerned citizens realistic steps forward Rather than getting bogged down in debates on Aboriginal rights they highlight Aboriginal success stories and redirect the conversation to a place of common ground Upholding equality of economic opportunity as a guiding principle they argue that the road ahead is clear if all Canadians take up their responsibilities as treaty peoples Canada will become a leader among treaty nations

Hiller, 2014 Rather than interpreting the Olympics as primarily a sporting event of international or national significance this book understands the Games as a civic project for the host city that serves as a catalyst for a variety of urban interests over a period of many years from the bidding phase through the event itself

Traditional Olympic studies have tended to examine the Games from an outsider's perspective or as something experienced through the print media or television. In contrast, the focus presented here is on the dynamics within the host city understood as a community of interacting individuals who encounter the Games in a variety of ways through support, opposition or even indifference, but who have a profound influence on the outcome of the Games as actors and players in the Olympics as a drama. Adopting a symbolic interactionist approach, the book offers a new interpretive model through which to understand the Olympic Games by exploring the relationship between the Games and residents of the host city. Key analytical concepts such as framing, dramaturgy, the public realm and the symbolic field are introduced and illustrated through empirical research from the Vancouver 2010 Winter Games, and it is shown how the social media and shifts in public opinion reflected interaction effects within the city. By filling a clear lacuna in the Olympic Studies canon, this book is important reading for anybody with an interest in the sociology of sport, urban studies, event studies or urban sociology.

*How Canadians Communicate V* David Taras, Christopher Waddell, 2016-03-15 Fewer Canadians than ever are lacing up skates, swimming lengths at the pool, practicing their curve ball and experiencing the thrill of competition. However, despite a decline in active participation, Canadians spend enormous amounts of time and money on sports as fans and followers of sporting events and sports culture. Never has media coverage of sports been more exhaustive and never has it been more driven by commercial interests and the need to fuel consumerism on which corporate profits depend. But the power plays now occurring in the arena of sports are by no means solely a matter of money. At issue as well in the media capture of sports are the values that inform our daily lives: the physical and emotional health of the population and the symbols so long central to a sense of Canadian identity. Writing from a variety of perspectives, the contributors to this collection set out to explore the impact of the media on our reception of and attitudes toward sports, to unpack the meanings that sports have for us as citizens and consumers. Some contributors probe the function of sports as spectacle, the escalation of violence, controversies over drug use and the media's coverage of tragic deaths, while others shed light on the way in which the media serve to transform sports into a vehicle for the expression of identity and nationalism. The goal is not to score points but to prompt critical discussion of why sports matter in Canadian life and culture and how they contribute to the construction of identity.

*Household Politics* Magda Fahrni, 2005-12-15 The reconstruction of Canadian society in the wake of the Second World War had an enormous impact on all aspects of public and private life. For families in Montreal, reconstruction plans included a stable home life hinged on social and economic security, female suffrage, welfare state measures and a reasonable cost of living. In *Household Politics*, Magda Fahrni examines postwar reconstruction from a variety of angles in order to fully convey its significance in the 1940s as differences of class, gender, language, religion and region naturally produced differing perspectives. Reconstruction was not simply a matter of official policy. Although the government set many of the parameters for public debate, federal projects did not inspire a postwar consensus and families alternatively embraced, negotiated or opposed government plans.

Through in depth research from a wide variety of sources Fahrni brings together family history social history and political history to look at a wide variety of Montreal families French speaking and English speaking Catholic Protestant and Jewish making Household Politics a particularly unique and erudite study     Screening Justice Steven Kohm, Sonia Bookman, Pauline Greenhill, 2016-12-07T00:00:00Z What do Canadian films say about crime and justice in Canada What purpose to Canadian crime films serve politically and culturally Screening Justice is a scholarly exploration of films that focus on crime and justice in Canada Crime films are pivotal for understanding and shaping Canadian sensibilities by setting out widely available templates for thinking about crime and justice in Canadian society Spanning disciplines and examining films from across Canada Screening Justice is the first comprehensive Canadian volume on crime films that takes up cultural criminology s call for more critical scholarly analyses of the interplay between crime culture and society     **The Tabernacled Presence of God** Susan Booth, 2015-09-18 Although a large majority of believers agree that they should share their faith most report that they in fact do not That s not really all that surprising given today s pluralistic cultural setting But maybe this same culture s longing for transcendence community and a place to call home points to a backstory that makes sense of it all If such a narrative exists it deserves a hearing and those who know and live this story have both the responsibility and privilege of sharing its message of hope The narrative of the Bible tells just such a story where God s purpose from the beginning has been to dwell or tabernacle in the midst of the people he has created This book traces the theme of God s tabernacled presence across Scripture reading the story afresh through a missional lens in order to gain insights for mission and gospel witness The hope is that readers will awaken wide eyed to the wonder of God s tabernacled presence in our midst that we will live in such a way that others recognize this reality and that we will boldly and joyfully share the good news of Jesus under the direction and power of his indwelling Spirit     The Legacy of the Olympic Games, 1984-2000 : International Symposium, Lausanne, 14th, 15th and 16th November 2002 Miquel de Moragas Spà, Christopher Kennett, 2003     **Sites of Governance** Martin Horak, Robert Young, 2012-04-24 Policies forged by all levels of government affect the lives of urban residents Contributors to this volume explore how intergovernmental relations shape urban policies and how various social forces are involved in or excluded from the policy process Focusing on diverse policy fields including emergency planning image building immigrant settlement infrastructure federal property and urban Aboriginal policy Sites of Governance presents detailed studies of the largest city in each of Canada s provinces Drawing on extensive documentary research and hundreds of interviews contributors offer rich nuanced analyses and a wealth of policy cases ranging from preparation for the Vancouver 2010 Olympics to the development of innovative immigrant settlement programming in Winnipeg Dominant themes include the importance of resources and formal jurisdiction in multilevel policy making and the struggle for influence between business interests and other social forces Essential reading for anyone concerned with the quality of urban life in Canada Sites of Governance offers important insights about how multilevel governance works in
