4. **Write** Write your notes and analysis in the spaces provided.

Key Concepts FOR PERIOD 2:

Key Concept 2.1: Europeans developed a variety of colonization and migration patterns, influenced by different imperial goals, cultures, and the varied North American environments where they settled, and they competed with each other and American Indians for resources.

Key Concept 2.2: The **British colonies** participated in political, social, cultural, and economic exchanges with Great Britain that encouraged both stronger bonds with Britain and resistance to Britain's control.

SECTION 1 - Period Overview, p.23

Consider the data in the chart at right as well as page 1 of the text when completing this section.

1. Period 2 begins with 1607 and ends in 1754. As the colonies increased in number, size, and power during this Colonial Era, the population of the eastern seaboard changed. Based on your knowledge of history and the data in the graph at right, explain three reasons for the demographic shift in the Chesapeake. (Chesapeake colonies include Virginia and Maryland)

Due to the increased number of immigrants that moved to the new land and new established settlements that were approved, the white population grew tremendously. With acres of new land to tend to, the demand of labor increased hence the large amount of African American population. The Native American population decreased because of diseases and the ones that did not die were moved westward.
