	What the Soviets Wanted	What the Americans Wanted
1. Would it make any sense to build space programs and rockets?	That U.S. support them economically (training, fuel, etc.)	Not really.
2. Would anyone benefit from the rockets and satellites they could build?	They would certainly produce satellites that were better. They could improve delivery of aid.	They were worried about the loss of U.S. technology when U.S. tech people came to Europe. Europe, planned under the control of General Douglas MacArthur.
3. Would anyone challenge U.S. power?	Not really.	Europe would no longer come under American and U.S. domination.
4. Would the U.S. achieve other goals under the new treaty?	Yes. The governments could no longer be considered enemies.	The American public was surprised and would not take a neutralist line then.

2. Suppose the agreement simply set up the program, without

these other agreements made with it.

3. Why did the Americans want to do this?

4. What would the governments be expected to do without
