Education: Theory and Practice E-Book Tim Dornan, Karen V. Mann, Albert J J A Scherpbier, John A. Spencer, 2011-12-02

Medical Education Theory and Practice is a new text linking the theory and the practice for graduate students and educators who want to go beyond the basics. The scholarship of medical education is above all a practice but one that has a strong theoretical foundation. Neither theory nor practice stand still and both are grounded in research. The novelty of this book lies in its interweaving of practice, theory, innovation and research. The book starts with a theorised contemporary overview of the field. Next it explores the theoretical foundations of medical education in depth. The remainder of the book reviews a whole range of educational contexts, processes and outcomes. This work has been edited by a distinguished international team of medical educationalists and written by equally accomplished authors from across the globe representing a spectrum of disciplines. This will be an invaluable text for all Masters Students in health professions education as well as PhD students and education researchers wanting a background to the discipline. Educators and medical students will also find it a very useful resource. Written by key figures in medical educational research combined with a strong editorial influence from the international editorial team. The text has a strong evidence based approach that is fully cognisant of research methodology issues. The book provides a scholarly explanation on the topic rather than aiming to say the last word. Written throughout in a clear and comprehensible style. The content is extensively referenced with additional suggestions for further reading.

Conservation Education and Outreach Techniques Susan Kay Jacobson, Mallory D. McDuff, Martha C. Monroe, 2015

The conservation of biological diversity depends on people's knowledge and actions. This book presents the theory and practice for creating effective education and outreach programmes for conservation. The authors describe an exciting array of techniques for enhancing school resources, marketing environmental messages using social media, developing partnerships for conservation and designing on-site programmes for parks and community centres. Vivid case studies from around the world illustrate techniques and describe planning, implementation and evaluation procedures enabling readers to implement their own new ideas effectively. Conservation Education and Outreach Techniques now in its second edition and updated throughout includes twelve chapters illustrated with numerous photographs showing education and outreach programmes in action, each incorporating an extensive bibliography. Helpful text boxes provide practical tips, guidelines and recommendations for further exploration of the chapter topics. This book will be particularly relevant to conservation scientists, resource managers, environmental educators, students and citizen activists. It will also serve as a handy reference and a comprehensive text for a variety of natural resource and environmental professionals.
