Random Acts Of Blindness An Erotic Romance A Novella:

A Random Act of Blindness Kelli Jae Baeli, 2008-02-01 Never in all her days had she imagined herself in a position like this Vivid fantasies aside Rachel had never considered acting on the impulses that invaded her thoughts throughout the day They were private affairs stored only in some scurrilous recess of her mind Yet her mind interacted with other minds and often there were fragments of information to be had in often ironic ways Doctor Bass for instance listened to her confession of the scandalous gearshift penetration mirage and fantasy bondage scenarios and produced a copy of the bondage magazine While not something Professor Rachel Leeds believed would qualify as a literary device it was nonetheless pivotal in the events in which she was now participating Namely being on her way to a hardware store to find something to use as a whip on the girl who lay naked and bound in hotel room number 66 the Mark of the Almost Beast *Random Acts of Blindness* Kelli Jae Baeli, 2015-07-13 In this erotic novella Rachel Leeds is a repressed literature professor who struggles with taboo fantasies that invade her sexual identity with razor sharp intensity Just as Rachel's answers begin to overpower her questions she crosses paths with a clever young lesbian who isn't who she appears to be and manages to turn her staid academia into a firestorm of desire pulling at the threads of Rachel's carefully controlled existence Random Acts of Blindness is a steamy lesbian tale that takes an often superficial genre and imbues it with eloquence and multi dimensional facets Baeli has created characters a reader can truly invest in and care about [Adult Catalog: Fiction](#) Los Angeles County Public Library, 1970

Airpower in Literature Kimberly K. Dougherty, 2022-08-08 The first century of airpower has ended yet few critics have addressed the literature that chronicles its human toll Airpower in Literature Interrogating the Clean War 1915-2015 offers fresh insight into this airpower century by placing literature of five major wars in conversation with the clean war discourse Kimberly Dougherty examines the paradoxical representation of aerial warfare that has allowed extensive airstrikes on cities and civilians while promising a cleaner method of waging war First suggested by early military theorists the notion of a clean air war one that would save lives through its speed and precision proved seductive in the twentieth century and continues to shape the rhetoric of airpower today The air war is perceived as clean the author argues when we see neither the aviator nor the targeted populations in the bombing dynamic Through analysis of fiction poetry drama and journalism from the ruins of World War I to the technologies of post modern war the author identifies counternarratives that make visible both aviators and bombed societies and present aerial warfare that is not clean but messy prolonged and imprecise This exploration encourages readers and writers to approach the next century of airpower with greater wisdom and empathy
