For The Crown and The Dragon Stephen Hunt,1994-06-16 It is the final years of the 18th century but a world which few would recognise The people of Europe shelter in small islands of safety havens from the enchanted wilderness the strange boundless forests people call the Tumble It is across this demon haunted landscape that the low born officer Taliesin must lead his men caught up in the deadliest of intrigues while fighting wars for a noble class which despises him With vicious murderers from the worst gutters in the Realm marching behind him and the forces of the most powerful nations of the mainland arrayed against him the odds are stacked against Taliesin Heavily Yet he will fight on battling armies sorcerers assassins beastmen and cross into the face of hell itself Not for loyalty or grudging respect for his scheming monarch not even for the small mountain of silver the Island Queen has promised him if he succeeds But because fighting is all he and his pressed band of cut throats and thieves have ever known

Race, State, and Armed Forces in Independence-Era Brazil Hendrik Kraay,2004-08-01 Focusing on the military institutions army militia and National Guard of Bahia Brazil this book analyzes the region s transition from Portuguese colony to province of the Brazilian Empire It examines the social racial and cultural dimensions of post independence state building in one of the principal slave plantation regions of the Americas Contrary to those who stress the autonomy of the Brazilian state this book documents the close connections between the locally organized armed forces and society in the late colonial period Racially segregated and mirroring the class hierarchies of the larger society these military institutions were profoundly transformed by the war for independence in the early 1820s In its aftermath the new Brazilian state gradually built a national army breaking the local orientation of the Bahian regulars by the 1840s The National Guard locally oriented and democratic in its 1831 organization was turned into a state controlled corporation in the 1840s These developments deeply affected the lives of the men and women involved in the armed forces and a main aim of this book is to examine their participation in the complex and convoluted process of state building The liberalism used to justify independence and the creation of an imperial state resonated among ordinary soldiers and officers as it provided an ideology and language with which to challenge important features of late colonial military organization such as racial segregation and corporal punishment Racial discrimination formally eliminated in the 1830s shaped racial politics in the military while the construction of a national army undermined the previously close connections of officers and soldiers to the mainstream of Bahian society
