Sex on the Kitchen Table Norman C. Ellstrand, 2018-10-01 At the tips of our forks and on our dinner plates a buffet of botanical dalliance awaits us Sex and food are intimately intertwined and this relationship is nowhere more evident than among the plants that sustain us From lascivious legumes to horny hot peppers most of humanity's calories and other nutrition come from seeds and fruits the products of sex or from flowers the organs that make plant sex possible Sex has also played an arms length role in delivering plant food to our stomachs as human handmade evolution plant breeding or artificial selection has turned wild species into domesticated staples In *Sex on the Kitchen Table* Norman C. Ellstrand takes us on a vegetable laced tour of this entire sexual adventure Starting with the love apple otherwise known as the tomato as a platform for understanding the kaleidoscopic ways that plants can engage in sex successive chapters explore the sex lives of a range of food crops including bananas avocados and beets finally ending with genetically engineered squash a controversial virus resistant vegetable created by a process that involves the most ancient form of sex Peppered throughout are original illustrations and delicious recipes from sweet and savory tomato pudding to banana puffed pancakes avocado toast of course and both transgenic and non GMO tacos An eye opening medley of serious science culinary delights and humor *Sex on the Kitchen Table* offers new insight into fornicating flowers salacious squash and what we owe to them So as we sit down to
