Miller,2000 Between Emma Peel and tire Ministry of Silly Walks British television had a significant impact on American popular culture in the 1960s and 1970s In Something Completely Different Jeffrey Miller offers the first comprehensive study of British programming on American television discussing why the American networks imported such series as The Avengers and Monty Python s Flying Circus how American audiences received these uniquely British shows and how the shows success reshaped American television Miller s lively analysis covers three genres spy shows costume dramas and sketch comedies In addition to his close readings of the series themselves Miller considers the networks packaging of the programs for American viewers and the influences that led to their acceptance including the American television industry s search for new advertising revenue and the creation of PBS **Space and Time** David C. Wright, Jr.,Allan W. Austin,2010-04-19 Essays in this work examine treatments of history in science fiction and fantasy television programs from a variety of disciplinary and methodological perspectives Some essays approach science fiction and fantasy television as primary evidence demonstrating how such programs consciously or unconsciously elucidate persistent concerns and enduring ideals of a past era and place Other essays study television as secondary evidence investigating how popular media construct and communicate narratives about past events Documentary Erik Barnouw,1993 Presents a history of the documentary film **Consumerism in Twentieth-Century Britain** Matthew Hilton,2003-11-13 This book is the first comprehensive history of consumerism as an organised social and political movement Matthew Hilton offers a groundbreaking account of consumer movements ideologies and organisations in twentieth century Britain He argues that in organisations such as the Co operative movement and the Consumers Association individual concern with what and how we spend our wages led to forms of political engagement too often overlooked in existing accounts of twentieth century history He explores how the consumer and consumerism came to be regarded by many as a third force in society with the potential to free politics from the perceived stranglehold of the self interested actions of employers and trade unions Finally he recovers the visions of countless consumer activists who saw in consumption a genuine force for liberation for women the working class and new social movements as well as a set of ideas often deliberately excluded from more established political organisations *A Monthly List of All New Books Published in Great Britain* ,1844 **Hoover's Handbook** Gary Hoover,Alta Campbell,Patrick J.
