30 Days to Deep Meditation Simona Rich, 2018-01-01 It is a fully revised and updated version of a book I wrote years ago about my personal method of getting deep into meditation This book is written to help you get into deep meditation through a different meditation task each day The purpose of this book is to get you used to meditation through variety Once you get the taste of deep meditation as a result of different meditation practices each day you won't need much variety after such an experience because the taste of meditation depths will keep you going The reason it is important to go beyond the surface is that once you touch upon realities not usually perceived during the waking consciousness this experience is so profound that you will naturally want to meditate after such a life changing event So that is the whole point of this book to get you to experience what lies beyond waking consciousness Although meditation experiences are not the end goal this is a very important point to reach because it will keep you motivated to continue your meditation Later on of course a meditator is supposed to go beyond the non physical experiences as they are only the scenery on your path to liberation So for some people the way to start is definitely through variety Otherwise they will get bored before they experience any depth of the meditative practice This book therefore is mainly written for people who find it difficult to meditate in the same way each day which makes them unable to go beyond the surface of this reality It is also written for those who are completely new to meditation or as of yet have been unable to experience any depths of it A unique and engaging meditative practice each day will keep your interest strong enough to continue for a month and in this period the mind will relax enough to go beyond the waking consciousness making you experience realities that very few get to know

Female Kundalini Margaret Miranda Dempsey, 2014-11-06 The inner event that awakens Kundalini remains a mystery In Margaret Dempsey's case years of Buddhist meditation galvanized by a traumatic contact with an attractive man triggered the uprising of Shakti Her honesty in not attempting to glamorize the awakening attests to its authenticity The author's real Self to which Kundalini eventually brought her is in evidence from page one as she describes her upbringing in Catholic Ireland her days in a boarding school run by nuns her training as a nurse and her escape to London New York and India

Awakening Dr. Surindar Suri, 2024-12-19 In a burning world of today you can achieve peace of mind only if you awaken your mind by meditation following spiritual teachings of great Prophets who came on this earth from time to time Awakening of mind is the need of time to achieve the peace of mind Awareness is like the sun when it shines on things they are transformed You are rich when you are content and happy with what you have Peace does not mean to be in a place where there is no voice troubles or hard work it means to be in the midst of those things and still be

calm in your heart Be soft do not let the world make your hard Do not let pain make you heart Do not let the bitterness steal your sweetness Remember when root is deep there is no reason to fear of wind In this book of mine Awakening I have thrown light on various subjects to awaken your mind and to have a happy and peaceful life To believe is to perceive either by senses or the soul This distinction constitutes two classes the sceptic and the believer which though dependent on may yet be incomprehensible to each other but both being necessary to established the balance of thought they are forced into existence and become the links and cross links which make life s endless chain from thought to truth It is a great thing to know the laws of physical nature and exercise control over it But still greater is to know the laws which govern the human mind and it is the greatest victory to conquer the mind which conquered the matter so that he remains no more slave to the matter to conquer which he worked so hard and thus avoid the greatest contradiction of life Dr Surindar Singh Suri Letters from the Yoga Masters Marion (Mugs) McConnell,2016-06-07 This intimate and insightful account of the life of Dr Harry Hari Dickman referred to by Swami Sivananda as the yogi of the West features more than fifty years of correspondence between Dickman and well known yoga masters such as Swami Sivananda Ramana Maharshi Paramhansa Yogananda and almost one hundred others Marion Mugs McConnell Dickman s student has created a brilliant and loving tribute to her teacher who founded the Latvian Yoga Society in the early 1930s and later spread his knowledge in the U S with the blessings of Paramhansa Yogananda author of Autobiography of a Yogi Offering a broad range of information on yoga history theory and techniques from a variety of different paths Letters from the Yoga Masters contains a treasure trove of previously unavailable material and presents detailed teachings about pranayama mudras diet and much more all interwoven with stories and personal anecdotes Taken together the rare correspondence and personal chronicles provide an unparalleled glimpse into the life of a yogi the development of yoga in the West and the ways that spiritual wealth is disseminated across generations

How To Do Yoga Yogi Anand Ji,2021-09-16 One of the classical book on yogic philosophy with practical wisdom on day to day practice of yoga Author Yogi shri Anandji has provided finer details of meditative visions and experiences which works as a guiding light for spiritual seekers of all genre Instead of bookish knowledge author has kindly provided his direct experiences for the benefit of society A must read practical manual for spiritual seekers **A Week on a Ward** Vincent Blade Douglas,2018-10-26 This is the story of a week spent on a closed psychiatric ward Getting in getting out and after images memories of those first months off of the ward are also included It is an accurate factual first person account of one person s madness **The Biology of Consciousness** JJ Semple,2014-07-03 Kundalini is a biological actuality a primordial energy in every human being that is capable of modifying DNA in a single lifetime It s trans national trans cultural and most important trans denominational All of which speaks to a unified cosmology of life that we are really intertwined in so many ways in spite of the self imposed barriers we erect to separate us from each other and from the super consciousness that permeates all of existence If individuals are to achieve self actualization during a single lifetime Kundalini will be the gating

agent for this evolutionary leap Whether it s practicing ancient methods of meditation or newly developed methods Kundalini is the trigger Meditation may provide the shortest path but there are other means of achieving the same results including cases where individuals do absolutely nothing but are still visited by a spontaneous Kundalini awakening The one element all these experiences share across the board is a change in metabolism induced by a process known as sexual sublimation even though in some instances the individuals neither detect nor feel any sexual activity Some way or other the subject s metabolism produces a distilled form of sexual energy that gets released into the brain activating Kundalini which managed correctly restores health stimulates creative abilities alters negative behavior patterns retards the aging process and expands consciousness Normally human growth proceeds in a linear pattern However disease environmental factors biochemical changes can create genetic mutations ultimately modifying DNA Depending on the type of stimulus these mutations are either beneficial harmful or neutral Kundalini awakenings bring about major beneficial mutations in their subjects which get passed along in DNA code to the next generation The Biology of Consciousness examines the idea for physical scientists the hypothesis that consciousness exists outside the body always has and always will It is the driver of evolution among other things what Gopi Krishna termed the evolutionary impulse **Tantric Yoga** Gavin Frost,Yvonne Frost,1996-01-01 Advanced text discusses the inherent quadrality of the Gods and Goddesses and how creation systems work Through a series of meditations and visualizations the authors show how kundalini energy can be safely activated and cycled bringing you through a psychic loop that empowers you to discover new knowledge and bring it back into consciousness with you *How to Be One with God* Ravindra Kumar,2008-04-10 Scriptures and holy books are not understood in their right perspective unless one becomes an initiate or twice born However great a scholar one may be one cannot really appreciate the facts presented therein in the real sense Why this is so and what is the way back to our original spirituality is the subject matter of this book The book presents the author s autobiography giving details of the evolution of the universe and then various methods of transcending normal consciousness to become twice born Finally the method of Shaktipat for a quantum jump into divinity through the power passed onto a disciple by the Guru is presented The author has given his recommendations and suggestions to the seekers based on his personal experiences The Inner Life of Krishnamurti Aryel Sanat,2013-11-01 Aryel Sanat s meticulously researched and cogently argued exploration of Krishnamurti s inner life and experiences explodes a number of popular myths about Krishnamurti particularly that he denied the existence of the Theosophical Masters and disdained the esoteric side of the spiritual path Rather Sanat persuasively demonstrates Krishnamurti had a rich and intense esoteric life Moreover the truths of the Ancient Wisdom as revealed through the Masters were a reality to Krishnamurti every day of his life from his boyhood until his death The real story of Krishnamurti s inner life is shown to have critical implications for our understanding of Krishnamurti s life and ideas and for our views of Theosophy Buddhism the teachings of Gurdjieff indeed the entirety of contemporary spiritual thought
