UPON SUCCESSFUL HUMAN CLONING THE MOTHER AND THE MILITARY OF USA DESTROY THE EARTH TO REDEFINE MANKIND AND HUMANITY ON THE RECREATED EARTH 6 SETTING 21ST CENTURY INDIA and Military of USA THE STORY Beautiful Rose must find a way thru life on Earth because the origin would then go missing otherwise The same fortunate Ryan Lochte finds a way thru the consequences following like he can He consumes LSD which was prescribed for him for recovery from psychological mental and physical pain he chose to go thru The drug makes him realize his true identity together with self realization and self actualization The aliens are only bloodless bodies 100 aliens travel to Earth and contact Military of USA where Officer Nick and Rose communicate with them and later these reveal that the bodies evaporated like only acid was left from the 100 alien bodies acid which we need to recreate the Earth The one who had been communicating with the Military said that his own human clone was born already and that he s Ryan Lochte US Olympic swimmer He left two documents for him before his body evaporated Info and Manual Upon having this knowledge Ryan would become Lord Shiva the destroyer God These 100 were clones of the same one God Lord Shiva On his planet which can be called Mirror World they had cloning on high In the beginning a woman clone of the same God was created and was killed she was Rose The God studied the genes for 5 000 years and then destroyed the planet together with thousands of trillions of clones on the planet In Hell these were punished by giant biological machines with which the God created souls of girls these were clone children of Rose Meanwhile Rose was working together with the Military of USA who are planning to end the Earth to recreate Earth Together they plan to make a blast at CERN for which they let the secret information out to terrorists who are going to destroy the Earth bit by bit and then finally totally Rose has clone children and is planning many more She can grow lost limbs for which she has a set strategy to follow Rose gets to find offense very easily and the way she was brought up she would deny anything which comes her way and would reply with positivity instead Then onwards once she gets to find her tattoos which represent Ryan Lochte and her son with him Neero she would forgive everyone being a religious one someone who s been touched by Christ The belief part is her conscience and Humanity and Mankind would continue with her existence among many men we who survived the salvation and recreated the Earth for betterment of life The purpose was met because she is a fertile woman The Military builds Green Giant The Ship which can be operated using two software 1 Lady Machine and 2 Man Machine First Rose built Lady Machine and later the Military together standing as one person built Man Machine Lady Machine can operate the ship but upon being met with emergencies she would give up working for possibly anyone And this fault led her to give birth to so many clone children hers as well as those of her lovers There re going to be 8 more twins born with her eggs and her lovers sperms and each of these twins one is a girl and the other is a boy they are lovers among them two During 2020 Neero was born and in the umbilical cord there were Human Roe together with stemcells which were derived in a way that one hundred thousand clone girl children can be born who had Double Helix Ring DNA There s Polar Bear Project which took place before her pregnancy They hunt a polar bear and the

DMT derived from the brain was given to Rose who got pregnant the same night and on 31st day of conception the embryo was taken out using vacuum aspiration the third generation of mixing the stemcells would be able to grow lost limbs for the veterans this technology led to cure Cancer The belief part of the story on Rose s behalf was about Christ being her son Neero Her visions include her religious point of view and she knows that these 100 aliens were religious leaders of that planet Science together with Religion creates and destroys Mankind We are being cause and reason for creation as well as destruction But God is one of us And the same matter gets to find her right when she describes how exactly Neero appeared to her ever since she was 17 years old and what work the Demon made her do which can lead Humanity and Mankind to this so severe destination in the sense that science and religion together can destroy the planet Earth and she can create another kind of world together with all potent guys who were made to survive She consumes the DMT from her brother s brain who according to the theory she wrote is Satan himself the DMT makes her colors of eyes skin and hair change to blue white and maroon successively The quest is just the beginning she left her parents home where her brother was living too Together with Lucky she found a better way to live life while her child Sara was born thru her with normal delivery Later she asked Tiger to help her get rid of the knowledge which has been bothering her thru out the years the fact that she can kill using only her brain and would if she has to in order to protect her family and child The same technique with which she can kill can give life also The positivity she had been talking about led her to the right kind of crowd in this world and she calls the potent guys her brothers Tiger unveils her true identity to the entire world and she can go unnoticed in her brain but not by the world Upon this recognition she wrote this story which was meant to describe her schizophrenic situation and upon completion there s destruction of our Earth When she is in her right senses she realizes that she is half asleep in her senses and can communicate with the Demon Neero who imposed upon her that she must talk about the situation to Tiger who would later realize the severity of the situation and can make it availed for betterment of life

*Soul, World, and Idea* Daniel Sherman, 2013-10-03 In its examination of two of Plato s key works *Soul World and Idea* An Interpretation of Plato s *Republic* and *Phaedo* reveals the key role that that images and our capacity for image making play in the relationship among soul world and idea This book begins and ends with a reading of the *Republic* Daniel Sherman turns midway to the *Phaedo* to further analyze the nature of the soul and its relation to the nature of the Ideas then returns to apply the conclusions to the rest of the *Republic* Sherman s focus is on the ontological and epistemological argument including attention to the dramatic detail He argues that the ontology of the Ideas in the *Republic* and the *Phaedo* is inseparable from the ontology of human being that is from the structure and life of the soul On this interpretation the Ideas are seen as indeed objective but as in a sense also a product of a permanent dialectical relationship The Ideas though something more than concepts do not have any real independent existence outside of this human dialectical triad of world soul and Idea The stability of the Ideas need not be grounded in a static otherworldliness and the condition of meaning is not temporally prior to human existence in general

The result is a new interpretation concerning the realm of the Ideas the immortality of the soul and the lived in world of their interaction in the production of interpretive images Sherman argues that the platonic soul is immortal and the Ideas eternal wholly and solely in human dialogical activity the rest is muthologia and that the world of our experience is a product of an ongoing act of interpretation or dianoetic dialegesthai This reinterpretation the platonic Ideas will be especially interesting to students and scholars of classics ancient philosophy and continental philosophy
