Mechanisms of Age-cognition Relations in Adulthood Timothy A. Salthouse, 2013-05-13 This monograph is the written version of a series of talks delivered as recent MacEachran Lectures at the University of Alberta The informal style of the lectures and the inclusion of a relatively large number of figures has been preserved in order to keep the monograph faithful to the concept of an individual attempting to integrate his own research into a reasonably coherent framework Although the volume is very much a personal account of one individual s perspective the studies reported are naturally a product of many collaborations as well as inspirations from colleagues The fundamental issue addressed is how adult age differences in fluid or process aspects of cognitive functioning are to be explained Several potential mediators are considered with most of the emphasis devoted to the investigation of working memory and processing speed as variables mediating relations between age and cognition

Intra- and Inter-individual Variability of Executive Functions: Determinant and Modulating Factors in Healthy and Pathological Conditions Sarah E. MacPherson, Celine R. Gillebert, Gail A. Robinson, Antonino Vallesi, 2019-08-02 This eBook attempts to unify the contributions of different research groups investigating the sources of variability in executive functions discussing the most recent developments and integrating the knowledge accumulated across different fields It consists of a compilation of empirical theoretical and review articles studying executive functions in both clinical and healthy human populations Some of the key influences on intra and inter variability in executive functions discussed include the developmental trajectory of executive functions healthy and

pathological aging in executive functions as well as the influence of environmental factors and intelligence on executive functions Where Language Meets Thought Ellen Bialystok, 2024-05-27 In the World Library of Psychologists series international experts present career long collections of what they judge to be their most interesting publications extracts from books key articles research findings and practical and theoretical contributions Ellen Bialystok has published widely in the field of cognitive development and decline across the lifespan Her research uses behavioral and neuroimaging methods to examine the effect of experience on cognitive and brain systems with a focus on bilingualism Her discoveries include the identification of differences in the development of cognitive and language abilities for monolingual and bilingual children the use of different brain networks by monolingual and bilingual young adults performing cognitive tasks and the postponement of symptoms of dementia in bilingual older adults In other studies she has investigated the effects of bilingual education on children s development and the cognitive and brain consequences of bilingualism in older adults Including a specially written introduction in which Ellen Bialystok reflects on the role that language plays on thought this collection will serve as a valuable resource for students and researchers of psycholinguistics developmental psychology and applied linguistics

Certified Rehabilitation Counselor Examination Preparation Fong Chan, 2011-11-14 Print CourseSmart Personnel Psychology Alexandra Luong, Justin M. Sprung, Michael J. Zickar, 2023-09-05 Accessible and engaging this textbook introduces students to the field of personnel psychology also known as industrial psychology Based on their years of teaching in this area Luong Sprung and Zickar survey core topics in the field including job analysis recruitment selection assessment and performance evaluation Throughout they emphasize a psychological rather than management approach explaining the key psychological principles that underpin human resources practices Supported by plentiful examples review questions and discussion questions this comprehensive overview shows how personnel psychologists endeavor toward a better workplace Written in a clear and captivating style this book introduces students to the most recent and pertinent scientific research in personnel psychology and inspires future study in industrial organizational psychology and related fields Indian Educational Review , 1987 **Educational Psychology: Constructing Learning** Dennis M McInerney, 2013-08-15

Educational Psychology Constructing Learning 6e sets the standard for educational psychology texts in Australia and New Zealand with its comprehensive authoritative and research based coverage of the subject This edition includes completely updated content to reflect recent advances in the discipline including revised theory into practice features from 39 international developmental psychologists The author has retained the constructivist approach that made previous editions so engaging and relevant to student teachers and content has been constructed around the new Australian Profession Standards for Teachers Business and Industry Testing Joyce Hogan, 1990 **Short-term and Working Memory** Susan E. Gathercole, 2001 This special issue ponders a detailed and contemporary analysis of the theoretical underpinnings of short term and working memory Articles focus on short term memory for phonological semantic and spatial material on executive

function and on short term forgetting The empirical perspectives include the neuroimaging of short term memory short term memory development and the neuropsychology and neurobiology of memory in addition to laboratory based experimental studies Together these articles identify significant current models and approaches to short term and working memory providing a broad set of perspectives which illustrate the wide impact of working memory on the understanding of human cognition On the Development of Space-Number Relations: Linguistic and Cognitive Determinants, Influences, and Associations

Hans-Christoph Nuerk,Krzysztof Cipora, Frank Domahs, Maciej Haman,2020-03-30 **Intelligence Tests and Reviews** Oscar Krisen Buros,1975 **Development of Mental Representation** Irving E. Sigel,2013-06-17 There is a general and extensive literature in the development of representational thought and symbolic processes because of its centrality in human evolution However the umbrella of science and its method does not necessarily lead to a coherent conceptual model or agreements among scholars These basic differences among various disciplines have led to the creation of new and exciting realms of research This book considers how representational or symbolic thought develops for children s use in a wide array of these circumstances
