annotated table of all Toscanini's London concerts and his EMI discography CHRISTOPHER DYMENT has written extensively about historic conductors since the 1970s particularly Felix Weingartner and Arturo Toscanini His first book on Weingartner was published in 1976 *The Anglo-Saxon Fenland* Susan Oosthuizen, 2017-06-30 Archaeologies and histories of the fens of eastern England continue to suggest explicitly or by implication that the early medieval fenland was dominated by the activities of north west European colonists in a largely empty landscape Using existing and new evidence and arguments this new interdisciplinary history of the Anglo Saxon fenland offers another interpretation The fen islands and the silt fens show a degree of occupation unexpected a few decades ago Dense Romano British settlement appears to have been followed by consistent early medieval occupation on every island in the peat fens and across the silt fens despite the impact of climatic change The inhabitants of the region were organised within territorial groups in a complicated almost certainly dynamic hierarchy of subordinate and dominant polities principalities and kingdoms Their prosperous livelihoods were based on careful collective control exploitation and management of the vast natural water meadows on which their herds of cattle grazed This was a society whose origins could be found in prehistoric Britain and which had evolved through the period of Roman control and into the post imperial decades and centuries that followed The rich and complex history of the development of the region shows it is argued a traditional social order evolving adapting and innovating in response to changing times Message, 1942 *The Spectator*, 1873 **Catalogue of the Printed Books in the Library of the Faculty of Advocates ...** Faculty of Advocates (Scotland). Library, 1877 The Publishers' Circular and Booksellers' Record of British and Foreign Literature, 1903 **The English catalogue of books**, 1864 A Catalogue of Old and Rare Books Pickering & Chatto, 1900 **Gardeners' Chronicle**, 1861 **The Gardeners' Chronicle and Agricultural Gazette**, 1861

**A Marginal Economy?** Mark Bailey, 1989-06-29 A theory of the margin has long featured in the work of medieval historians Marginal regions are taken to be those of poor soil or geographical remoteness where farmers experienced particular difficulties in grain production It is argued that such regions were cultivated only when demographic pressure intensified in the thirteenth century but that a combination of soil exhaustion and demographic decline resulted in severe economic contraction by the end of the fourteenth century Marginal regions are seen not just as sensitive barometers of economic change but as important catalysts in that change Despite the importance placed by historians on the general theory of the margin this book represents the first detailed study of a marginal region It focuses upon East Anglian Breckland whose blowing sands are among the most barren soils in lowland England Drawing upon a wide range of sources this study reconstructs Breckland's late medieval economy and shows it to be more diversified and resilient than the stereotype depicted in marginal theory
