American Indian Languages Lyle Campbell, 2000-09-21 Native American languages are spoken from Siberia to Greenland and from the Arctic to Tierra del Fuego they include the southernmost language of the world Yaghan and some of the northernmost Eskimoan Campbell's project is to take stock of what is currently known about the history of Native American languages and in the process examine the state of American Indian historical linguistics and the success and failure of its various methodologies There is remarkably little consensus in the field largely due to the 1987 publication of *Language in the Americas* by Joseph Greenberg He claimed to trace a historical relation between all American Indian languages of North and South America implying that most of the Western Hemisphere was settled by a single wave of immigration from Asia This has caused intense controversy and Campbell as a leading scholar in the field intends this volume to be in part a response to Greenberg Finally Campbell demonstrates that the historical study of Native American languages
