BOOK JACKET **Multiculturalism, Dialectical Thought, and Social Justice Pedagogy** Daniel Ian Rubin, 2017-02-01 This monograph lays out a qualitative collective case study designed to assess how students in a secondary Latina/Latino Literature class began to think dialectically about issues of social justice By using various methods of data collection I ascertained how the students' thoughts and perceptions of Latinas/Latinos in this country changed over the course of the study I introduced the students to both print and nonprint texts e.g. news articles documentary films which when presented through Karl Marx's dialectical method helped them see social justice issues such as racism poverty and subjugation more clearly and critically After analysis several important themes emerged from the data stereotyping and invisibility in the media immigration the notion of power racism and discrimination education anger and frustration and questioning By the end of the Latina/Latino Literature class all of the students in the study were able to identify particular

social justice issues explain the historical context which framed the current debates e g immigration reform and articulate their opinions of the issues Each student participant started to use social justice terminology which I introduced and used frequently in class e g equity and these words became a part of the students everyday vocabularies Furthermore by the completion of the class the student participants began to realize that they had their own individual voices and could help transform societal issues in order to make the United States more equitable for all Between Worlds Susan

Kleespies,2016-09-19 The Oxford Handbook of Behavioral Emergencies and Crises includes the most up to date and valuable research on the evaluation and management of the most challenging patients or clients faced by mental health providers individuals who are at high risk of suicide of other directed violence or of becoming the victims of interpersonal violence These are cases in which the outcome can be serious injury or death and there can be negative consequences not only for the patient but also for the patient s family and friends for the assessing or treating

clinician and for the patient's clinic or medical center. Virtually all mental health clinicians with an active caseload will see individuals with such issues. This Handbook is comprised of chapters by leading clinicians, researchers, and scholars in this area of practice. It presents a framework for learning the skills needed for assessing and working competently with such high-risk individuals. Chapters draw a distinction between behavioral emergencies and crises and between emergency intervention and crisis intervention. The book examines the interrelated aspects of the major behavioral emergencies that is, for example, the degree to which interpersonal victimization may lead an individual on a pathway to later suicidal or violent behavior or the degree to which suicidal individuals and violent individuals may share certain cognitive characteristics. This resource is not simply a knowledge base for behavioral emergencies; it also presents a method for reducing stress and acquiring skills in working with high-risk people.
