New Developments in Pupil Report Cards ... National Education Association of the United States. Department of superintendence & research division, 1934 The Other Side of the Report Card Maurice J. Elias, Joseph J. Ferrito, Dominic C. Mocer, 2015-12-14 To better serve the whole child look at the whole report card Although parents and teachers spend more time in conferences talking about behavior than they do about rubrics and test scores too many teachers are still guessing when it comes to using outdated behavior ratings and comments to describe the whole child With this book you ll take report cards to the next level integrating social emotional learning and character development into any grading system Resources include Guided exercises for analyzing existing report cards Suggested report card designs Tips on improving teacher parent communication Case studies Testimonials from teachers and students Classroom Assessment Dr Craig Mertler, 2016-09-13 Provides detailed information on the functions of assessment how to construct administer and interpret the results of teacher developed assessment techniques and how to interpret the results of externally developed instruments such as standardized tests Both traditional and newer alternative assessment techniques are covered Advantages and disadvantages of each assessment technique are discussed A companion website helps both instructors and students obtain additional information on topics of special interest to them Numerous examples of the principles and procedures make it easy for students to understand the material The highly practical nature of this book stems from the focus on how assessment intertwines with other everyday activities in classrooms Measurement theory and computational procedures that are unlikely to be used by classroom teachers are de emphasized producing a textbook that provides comprehensive coverage without being unnecessarily technical Developing Standards-Based Report Cards Thomas R. Guskey, Jane M. Bailey, 2010 Providing a clear framework this volume helps school leaders align assessment and reporting practices with standards based education and develop more detailed reports of children s learning and progress Developing Standards-Based Report Cards Thomas R. Guskey, Jane M. Bailey, 2009-11-17 Guskey and Bailey offer realistic solutions to improving how educators communicate a student s academic progress to all stakeholders Their work provides a faculty with the research step by step guidelines and reporting templates to begin the dialogue to develop a standards based report card Without a doubt this work is a model for schools that want to improve their system of grading and reporting It certainly has transformed ours Jeffrey Erickson Assistant Principal Minnetonka High School MN Develop standards based report cards that are meaningful to students parents and educators Although schools have moved toward standards based curriculum and instruction grading practices and reporting systems have remained largely unchanged Helping school leaders gain support for transitioning from traditional to standards based report cards this book guides educators in aligning assessment and reporting practices with standards based education and providing more detailed reports of children s learning and achievement A standards based report card breaks down each subject area into specific elements of learning to offer parents and educators a more thorough

description of each child's progress toward proficiency This accessible volume Provides a clear framework for developing standards based report cards Shows how to communicate with parents students and other stakeholders about changes Illustrates how to achieve grading consistency without increasing teachers workloads or violating their professional autonomy Filled with examples of standards based report cards that can be adapted to a school's needs this practical resource shows district and school administrators how to establish reporting practices that facilitate learning

Grading for Impact Tom Hierck, Garth Larson, 2018-04-04 Aim for a target based grading system and create stronger learning opportunities Do you wish there was more clarity when it comes to measuring student progress and learning What if there was a way to utilize grading and assessment to focus on learning rather than performance and the process rather than the product As grading assessment and reporting continue to be relevant topics of discussion this book helps you create a functional plan to elevate and advance standards based grading practices Teachers and administrators will learn how to assess grade and report against specific learning targets rather than standards as a whole to make skill acquisition the highest priority Grounded in application to provide focus and clarity this book features Real case studies of schools that have incorporated target based assessment feedback grading and reporting Practical examples to guide implementation Questions checklists illustrations and audits of practice to showcase the work in action An accessible format and layout that support both immediate implementation and long term goals Despite being a topic that generates emotion and resistance to change target based assessment builds the foundation for a learner centered system that provides clear expectations and feedback for teachers students and parents Grading for Impact is a simple and straightforward guide to re thinking grading based on mastery of specific skills and concepts rather than broadly written standards Real world examples of teachers struggling with and answering the old questions are included How do we grade fairly and accurately and How do we use grades as an instructional strategy Joseph Staub High School Teacher Downtown Magnets High School CA Most stakeholders agree that report cards aren't enough to show what our students are learning in school but changing the traditional grading system is a task that requires careful planning and challenging discussions Grading for Impact shows educators how to start and plan the discussions that will result in genuine learning experiences for students Ernie Rambo Virtual Learning Community Coordinator Nevada National Board Professional Learning Institute
