**Respiratory Human Body Systems
Comic Strip Project**

In this project, you will create a comic strip that uses storytelling to teach others about respiratory human body systems.

Your comic strip must include...

- ☐ Characters & a clear appropriate storyline
- ☐ A description of why this system is important for survival
- ☐ A clear example of the following organs and describe their function:
 - Nose and mouth
 - Epiglottis
 - Larynx
 - Trachea
 - Bronchioles
 - Lungs
- ☐ Speech bubbles and/or text in each box
- ☐ Colored-in and relevant drawings in each box

Don't know where to start? Think of a story where the characters are dealing with a problem related to the **respiratory** above.

The above **respiratory** words in **bold** must appear in your comic strip. Use the examples by **underlining** the words.

Ludke, Phillip J. Obermiller, 2012-04-20 Appalachians have been characterized as a population with numerous disparities in health and limited access to medical services and infrastructures leading to inaccurate generalizations that inhibit their healthcare progress Appalachians face significant challenges in obtaining effective care and the public lacks information about both their healthcare needs and about the

resources communities have developed to meet those needs In Appalachian Health and Well Being editors Robert L Ludke and Phillip J Obermiller bring together leading researchers and practitioners to provide a much needed compilation of data and research driven perspectives broadening our understanding of strategies to decrease the health inequalities affecting both rural and urban Appalachians The contributors propose specific recommendations for necessary research suggest practical solutions for health policy and present best practices models for effective health intervention This in depth analysis offers new insights for students health practitioners and policy makers promoting a greater understanding of the factors affecting Appalachian health and effective responses to those needs

Technophobia! Daniel Dinello, 2013-08-26 Techno heaven or techno hell If you believe many scientists working in the emerging fields of twenty first century technology the future is blissfully bright Initially human bodies will be perfected through genetic manipulation and the fusion of human and machine later human beings will completely shed the shackles of pain disease and even death as human minds are downloaded into death free robots whereby they can live forever in a heavenly posthuman existence In this techno utopian future humanity will be saved by the godlike power of technology If you believe the authors of science fiction however posthuman evolution marks the beginning of the end of human freedom values and identity Our dark future will be dominated by mad scientists rampaging robots killer clones and uncontrollable viruses In this timely new book Daniel Dinello examines the dramatic conflict between the techno utopia promised by real world scientists and the techno dystopia predicted by science fiction Organized into chapters devoted to robotics bionics artificial intelligence virtual reality biotechnology nanotechnology and other significant scientific advancements this book summarizes the current state of each technology while presenting corresponding reactions in science fiction Dinello draws on a rich range of material including films television books and computer games and argues that science fiction functions as a valuable corrective to technological domination countering techno hype and reflecting the weaponized religiously rationalized profit fueled motives of such science By imaging a disastrous future of posthuman techno totalitarianism science fiction encourages us to construct ways to contain new technology and asks its audience perhaps the most important question of the twenty first century is technology out of control
