The Impacts of Language and Literacy Policy on Teaching Practices in Ghana Philomena Osseo-Asare, 2021-03-15
This text critically examines changes in Ghanaian language and literacy policy following independence in 1957 to consider its impacts on early literacy teaching. By adopting a postcolonial theoretical perspective, the text interrogates the logic behind policy changes which have prioritised English local language or biliteracy. It draws on data from interviews with teachers and researcher observation to demonstrate how policies have influenced teaching and learning. Dr Osseo Asare's findings inform the development of a conceptual framework which highlights the socio cultural factors that impact the literacy and biliteracy of young children in Ghana, offering solutions to help teachers combat the challenges of frequent policy changes. This timely monograph will prove to be an essential resource not only for researchers working on education policies, teacher education and English language learning in postcolonial Ghana, but also for those looking to identify the thematic and methodological nuances of studying literacy and education in postcolonial contexts.

Development and Women's Reproductive Health in Ghana, 1920-1982 Holly Ashford,2022-12-09 This book investigates the history of women s reproductive health in Ghana arguing that between the 1920s and 1980s it was largely driven by discourses of development and population control rather than a concern for women s health or rights Between the 1920s and 1980s the choices that Ghanaian women made regarding their reproductive health were defined by development policy and practice Spanning the colonial and immediate postcolonial periods this book demonstrates that whilst the substance of development discourse shifted over time principles of development continued to be used to impact and legitimise reproductive health policy and practices well after independence The book explores Ghana s pluralist health system the introduction of maternal and child welfare the dominance of the Red Cross in Ghana s maternal and child health landscape nationalist pronatalism and global population activism In order to understand how global iterations of development and health policy impacted ordinary lives in Ghana the author uses evidence from multiple levels including private papers national archives and records of international and transnational organisations Providing balanced archival perspectives the book includes extensive oral history interviews

carried out with both rural Ghanaian women and traditional birth attendants as well as with midwives doctors and family planning fieldworkers This book will have an important impact on a number of historical fields including Ghanaian history global health history global histories of population and family planning and histories of development It will be of interest to researchers and students in the history of public health development Africa Ghana and gender **Ghana eBizguides** (Firm),2004 This guide is the perfect companion for the international business traveller who wants to have the best of both worlds business and leisure It offers comprehensive info which is either difficult to find or simply doesn't exist elsewhere All sections include full contact info telephone fax email website postal addresses Daily Graphic Sam Clegg,1992-08-13
