**Social Media, Fundamental Rights and Courts** Federica Casarosa, Evangelia Psychogiopoulou, 2023-06-23 This volume examines European and national higher court decisions on social media from the perspective of fundamental rights and judicial dialogue While the challenges social media poses for public policy and regulation have been widely discussed the role of courts in this evolving legal area especially from a fundamental rights standpoint has hitherto remained largely underexplored This volume probes the contribution of national and European judiciaries to the protection of fundamental rights in a social media setting and delves into patterns of dialogue and interaction between domestic courts the Court of Justice of the EU CJEU and the European Court of Human Rights ECtHR and between the CJEU and the ECtHR The book specifically examines the extent and ways in which national and European judges incorporate fundamental rights reasoning in their social media rulings It also investigates the nature and breadth of the use of European supranational case law in domestic judicial assessment and analyses the engagement of the CJEU and the ECtHR with the other s case law In doing so the book instils jurisprudential dynamics into the study of social media law and regulation exploring in particular the effects of European constitutionalism on the shaping and enforcement of fundamental rights in a social media context Written by emerging and established experts in the field this book will be essential reading for scholars of comparative European and constitutional law as well as those with a particular interest in digital technologies and social media

**Communication and Tourism** Michael Tsangaris, 2024-06-04 The nexus of human mobility and communication is intricate and this volume uncovers the deep rooted significance of tourism and media From antiquity to modern day Western communication systems have artfully crafted the allure of destinations making places irresistible to the travellers At its core this book proposes that the impetus for travel is a primal human necessity rooted in our inherent need for movement consciousness expansion and cultural development Featuring Greek civilization as a case study the book reveals how the rich cultural capital of modern

Greece long admired and assimilated by many global cultures has immensely contributed to Greece's contemporary tourism imaginary. Readers are challenged to look beyond prevailing practices where tourism management and marketing are the driving force for commercial exchange but to encompass its broader essence as a vital human function leading to richer experiences. It will be of interest to academics within areas related to tourism studies, mobility studies, mass media, communication and cultural studies.

*A Concise Guide to Lecturing in Higher Education and the Academic Professional Apprenticeship* Duncan Hindmarch, Lynn Machin, Sandra Murray, Tina Richardson, Helen Walmsley-Smith, 2025-02-28. Ideal for lecturers new to delivering higher education in universities, colleges and the private sector. It is specifically organised to cover the requirements of the new Academic Professional Apprenticeship, both teaching and research specialisms, and also supports lecturers undertaking the Post Graduate Certificate in Higher Education. The contents are fully mapped to the Higher Education Academy's UK Professional Standards Framework and the VITAE research standards. It is designed for both teaching and research lecturer apprenticeship routes and includes clear guidance to help pass the end point assessment. There is a focus on the holistic development of the academic professional within the current context of higher education.

Domestic Violence Richard L. Davis, 2008-03-07. Domestic violence does not begin the day an adult heterosexual male decides to beat and batter an adult heterosexual female. Domestic violence is a complicated and multifaceted enigma that includes child, sibling, spousal, intimate partner and elder abuse. Despite spending billions of dollars on domestic violence, the number of some categories of...

**City** P.D. Smith, 2012-06-19. For the first time in the history of the planet, more than half the population (3.3 billion people) are now living in cities. Two hundred years ago, only 3 per cent of the world's population were urbanites, a figure that had remained fairly stable give or take the occasional plague for about 1000 years. By 2030, 60 per cent of us will be urban dwellers. *City* is the ultimate handbook for the archetypal city and contains main sections on History, Customs and Language, Districts, Transport, Money, Work, Tourist Sites, Shops and markets, Nightlife, etc. and mini-essays on anything and everything from Babel, Tenochtitlan and Ellis Island to Beijing, Mumbai and New York, and from boulevards, suburbs, shanty towns and favelas to skylines, urban legends and the sacred. Drawing on a wide range of examples from cities across the world and throughout history, it explores the reasons why people first built cities and why urban populations are growing larger every year. *City* is illustrated throughout with a range of photographs, maps and other illustrations.

**The Oxford Handbook of Names and Naming** Carole Hough, 2016-05-03. In this handbook, scholars from around the world offer an up-to-date account of the state of the art in different areas of onomastics in a format that is both useful to specialists in related fields and accessible to the general reader. Since Ancient Greece, names have been regarded as central to the study of language, and this has continued to be a major theme of both philosophical and linguistic enquiry throughout the history of Western thought. The investigation of name origins is more recent, as is the study of names in literature. Relatively new is the study of names in society, which draws on techniques from sociolinguistics and has

gradually been gathering momentum over the last few decades The structure of this volume reflects the emergence of the main branches of name studies in roughly chronological order The first Part focuses on name theory and outlines key issues about the role of names in language focusing on grammar meaning and discourse Parts II and III deal with the study of place names and personal names respectively while Part IV outlines contrasting approaches to the study of names in literature with case studies from different languages and time periods Part V explores the field of socio onomastics with chapters relating to the names of people places and commercial products Part VI then examines the interdisciplinary nature of name studies before the concluding Part presents a selection of animate and inanimate referents ranging from aircraft to animals and explains the naming strategies adopted for them

### **Advances and Challenges in Pain Measurement** Kenneth

Craig, Loren Martin, Kai Karos, 2023-08-18 Lord Kelvin William Thompson To measure is to know If you cannot measure it you cannot improve it Pain has proven elusive to definitive measurement in research and clinical settings While the experience is familiar to virtually everyone it also is recognized as complex and multidimensional Critiques of the field advise that pain is often unrecognized inadequately assessed and underestimated Unidimensional scales relying upon self report are commonly used both clinically and in research settings but they are vulnerable to presentation bias and they fail to capture the complexity of this multidimensional phenomenon In consequence there has been considerable interest and effort devoted to the generation of measures capable to capturing the experience for both research and clinical purposes Both behavioral and physiological approaches have been pursued Verbal behavior is represented by self report scales that vary in dimensionality typically seeking to represent sensory affective and cognitive features of the experience The status of self report scales as the gold standard for pain assessment has been questioned Nonverbal measures seek to capture behavioral activity ranging from facial expression through limb movements and gestures to posture Physiological measures are similarly wide ranging capitalizing on recent developments in brain imaging and novel approaches to autonomic regulation There also are efforts to fuse behavioral and physiological measures as a means of capturing the complexity of pain This series of papers seeks to represent the most recent conceptual and empirical advances in the important and rapidly advancing field of pain assessment and measurement We invite both reviews of the literature and research investigations advancing the field
