**All in Your Head** Mara Buchbinder, 2015-06-05. Although pain is a universal human experience, many view the pain of others as private, resistant to language and therefore essentially unknowable. And yet, despite the obvious limits to comprehending another's internal state, language is all that we have to translate pain from the solitary and unknowable to a phenomenon richly described in literature, medicine, and everyday life. Without denying the private dimensions of pain, *All in Your Head* offers an entirely fresh perspective that considers how pain may be configured, managed, explained, and even experienced in deeply relational ways. Drawing on ethnographic fieldwork in a pediatric pain clinic in California, Mara Buchbinder explores how clinicians, adolescent patients, and their families make sense of puzzling symptoms and work to alleviate pain. Through careful attention to the language of pain, including narratives, conversations, models, and metaphors, and detailed analysis of how young pain sufferers make meaning through interactions with others, her book reveals that however private pain may be, making sense of it is profoundly social.

*Tailoring Surfaces: Modifying Surface Composition And Structure For Applications In Tribology, Biology And Catalysis* Nicholas D. Spencer, 2011-03-08. The works of the author, many of his crucial papers, are included; they deal with the understanding and modification of surfaces and span fields including catalysis, analytical surface science, self-assembled monolayers, tribology, biomaterials, superhydrophobicity, and polymer coatings.
