Rasmus H. Wandall, 2016-05-13 Rasmus Wandall uses quantitative and qualitative methods from studies carried out in Denmark to address the formal and informal norms and ideologies that are used to generate decisions to imprison. Focusing on the operations of the courtroom participants, his work investigates how court decision making is organized to allow the sentencing procedure to be open to more than its formal legal framework while at the same time keeping the sentencing within the boundaries of law and legal validity. The author uses the theory of law's operational closure developed by Niklas Luhmann. The theory provides an advantageous point of departure to capture the close and subtle interactions between law's need for validity and for contextual openness in every legal operation including court decision making.

Crime Scene Investigation Case Studies Jacqueline Fish, Jonathon Fish, 2013-03-18 This text offers an innovative approach to learning about crime scene investigation, taking the reader from the first response on the crime scene to documenting crime scene evidence and preparing evidence for courtroom presentation. It includes topics not normally covered in other texts such as forensic anthropology and pathology, arson and explosives, and the electronic crime scene. Numerous photographs and illustrations complement the text material. A chapter-by-chapter fictional narrative also provides the reader with a qualitative dimension of the crime scene experience. Crime Scene Investigation is further enhanced by the contributions of such recognized forensic scholars as William Bass and Arthur Bohannon.
