

Autobiographical Sketch

December 18, 2000, marks the day, I was gifted with life and the with the opportunity to leave my mark on society and with this, the desire to become a doctor did nothing but bloom. Growing up, I've always been fascinated with the wonders of life, and furthermore, science. Simple things, such as dressing a cut, or medication and lifestyle choices in order to battle illnesses interested me, to studying cells and different organisms.

I personally have never been a sickly child growing up, however I knew and was around many persons with a variety of ailments, so that is a factor in my drive to take on the profession of a doctor. A lot of deaths around me were due to sickness, and that has always left me wishing I could one day, help persons in those same situations, have a better end result. I've understood that my dad has had various illnesses. He's had a hole in his heart which had him in the hospital for a long while. Afterwards, there was another situation, in which he got extremely sick and was on the brink of death he had a near death experience, and the main cause of that still remains unknown. It's situations like this that has driven me to take on this journey towards indulging in a profession the medical field.

From a time, I can remember, I've always dreamed of becoming a doctor, and not once, through traversing infant, primary and high school, has that ever wavered or changed; it has only grown and evolved. I remember when I was very young, and asked what I wanted to become, and my only reply was "a doctor," and even afterwards when I've been asked that question, the answer, even varied, has remained the same. When I matriculated to high school, in my years from grade 7-9, the work I put in was solely to get a spot in the 10 science and technology core group, and beyond, and I was successful in doing so and doing my courses in that field right up until 6th form. In doing this course, my fascination in the sciences flourished, in participation in numerous experimental exercises. The Herbert Morrison Technical High School has gifted me with a vast area of knowledge that has helped me thus far in achieving my goal, and I am interested in your institution as I know I will be able to do greater development and achieve my goal there. The desire to pursue the medical profession has become potent need that I feel designated to fulfill, and that desire increases daily, hence it is something I'm determined to achieve one way or the other.
