

# I. Executive Summary

*An executive summary, or management summary, is a short document or section of a document, produced for business purposes, that summarizes a longer report or proposal or a group of related reports in such a way that readers can rapidly become acquainted with a large body of material without having to read it all.*

*You need to go over this entire document first before writing the Executive Summary. That way, you'll have thought through all the elements of your startup and be prepared to summarize them. However, keep this section in mind as you create your business plan.*
