PostGIS in Action, Second Edition Leo S. Hsu, Regina O. Obe, 2015-04-21 Summary PostGIS in Action Second Edition teaches readers of all levels to write spatial queries that solve real world problems It first gives you a background in vector raster and topology based GIS and then quickly moves into analyzing viewing and mapping data This second edition covers PostGIS 2.0 and 2.1 series PostgreSQL 9.1, 9.2 and 9.3 features and shows you how to integrate with other GIS tools Foreword by Paul Ramsey Purchase of the print book includes a free eBook in PDF Kindle and ePub formats from Manning Publications About the Book Processing data tied to location and topology requires specialized know how PostGIS is a free spatial database extender for PostgreSQL every bit as good as proprietary software With it you can easily create location aware queries in just a few lines of SQL code and build the back end for a mapping raster analysis or routing application with minimal effort PostGIS in Action Second Edition teaches you to solve real world geodata problems It first gives you a background in vector raster and topology based GIS and then quickly moves into analyzing viewing and mapping data You'll learn how to optimize queries for maximum speed simplify geometries for greater efficiency and create custom functions for your own applications You'll also learn how to apply your existing GIS knowledge to PostGIS and integrate with other GIS tools Familiarity with relational database and GIS concepts is helpful but not required What's Inside An introduction to spatial databases Geometry geography raster and topology spatial types functions and queries Applying PostGIS to real world problems Extending PostGIS to web and desktop applications Updated for PostGIS 2.x and PostgreSQL 9.x About the Authors Regina Obe and Leo Hsu are database consultants and authors Regina is a member of the PostGIS core development team and the Project Steering Committee Table of Contents What is a spatial database Spatial data types Spatial reference system considerations Working with real data Using PostGIS on the desktop Geometry and geography functions Raster functions PostGIS TIGER geocoder Geometry relationships Proximity analysis Geometry and geography processing Raster processing Building and using topologies Organizing spatial data Query performance tuning Extending PostGIS with pgRouting and procedural languages Using PostGIS in web applications PART 1 INTRODUCTION TO POSTGIS PART 2 PUTTING POSTGIS TO WORK PART 3 USING POSTGIS WITH OTHER TOOLS [Learn Docker in a Month of Lunches](#) Elton Stoneman, 2020-06-13 Summary Go from zero to production readiness with Docker in 22 bite sized lessons Learn Docker in a Month of Lunches is an accessible task focused guide to Docker on Linux Windows or Mac systems In it you'll learn practical Docker skills to help you tackle the challenges of modern IT from cloud migration and microservices to handling legacy systems There's no excessive theory or niche use cases just a quick and easy guide to the essentials of Docker you'll use every day Purchase of the print book includes a free eBook in PDF Kindle and ePub formats from Manning Publications About the technology The idea behind Docker is simple package applications in lightweight virtual containers that can be easily installed The results of this simple idea are huge Docker makes it possible to manage applications without creating custom

infrastructures Free open source and battle tested Docker has quickly become must know technology for developers and administrators About the book Learn Docker in a Month of Lunches introduces Docker concepts through a series of brief hands on lessons Follow ing a learning path perfected by author Elton Stoneman you ll run containers by chapter 2 and package applications by chapter 3 Each lesson teaches a practical skill you can practice on Windows macOS and Linux systems By the end of the month you ll know how to containerize and run any kind of application with Docker What s inside Package applications to run in containers Put containers into production Build optimized Docker images Run containerized apps at scale About the reader For IT professionals No previous Docker experience required About the author Elton Stoneman is a consultant a former architect at Docker a Microsoft MVP and a Pluralsight author Table of Contents PART 1 UNDERSTANDING DOCKER CONTAINERS AND IMAGES 1 Before you begin 2 Understanding Docker and running Hello World 3 Building your own Docker images 4 Packaging applications from source code into Docker Images 5 Sharing images with Docker Hub and other registries 6 Using Docker volumes for persistent storage PART 2 RUNNING DISTRIBUTED APPLICATIONS IN CONTAINERS 7 Running multi container apps with Docker Compose 8 Supporting reliability with health checks and dependency checks 9 Adding observability with containerized monitoring 10 Running multiple environments with Docker Compose 11 Building and testing applications with Docker and Docker Compose PART 3 RUNNING AT SCALE WITH A CONTAINER ORCHESTRATOR 12 Understanding orchestration Docker Swarm and Kubernetes 13 Deploying distributed applications as stacks in Docker Swarm 14 Automating releases with upgrades and rollbacks 15 Configuring Docker for secure remote access and CI CD 16 Building Docker images that run anywhere Linux Windows Intel and Arm PART 4 GETTING YOUR CONTAINERS READY FOR PRODUCTION 17 Optimizing your Docker images for size speed and security 18 Application configuration management in containers 19 Writing and managing application logs with Docker 20 Controlling HTTP traffic to containers with a reverse proxy 21 Asynchronous communication with a message queue 22 Never the end

Real World Instrumentation with Python John M. Hughes, 2010-11-15 Learn how to develop your own applications to monitor or control instrumentation hardware Whether you need to acquire data from a device or automate its functions this practical book shows you how to use Python s rapid development capabilities to build interfaces that include everything from software to wiring You get step by step instructions clear examples and hands on tips for interfacing a PC to a variety of devices Use the book s hardware survey to identify the interface type for your particular device and then follow detailed examples to develop an interface with Python and C Organized by interface type data processing activities and user interface implementations this book is for anyone who works with instrumentation robotics data acquisition or process control Understand how to define the scope of an application and determine the algorithms necessary and why it s important Learn how to use industry standard interfaces such as RS 232 RS 485 and GPIB Create low level extension modules in C to interface Python with a variety of hardware and test instruments Explore the console curses TkInter and wxPython for

graphical and text based user interfaces Use open source software tools and libraries to reduce costs and avoid implementing functionality from scratch

Applied Microsoft Analysis Services 2005 Teo Lachev, 2005 Knowledge is power As its name suggests the promise of Microsoft SQL Server Analysis Services 2005 is to promote better data analytics by giving information workers the right tool to analyze consistent timely and reliable data Empowered with Analysis Services and Microsoft Business Intelligence Platform you are well positioned to solve the perennial problem with data that there is too much of it and finding the right information is often difficult if not impossible Applied Microsoft Analysis Services 2005 shows database administrators and developers how to build complete OLAP solutions with Microsoft Analysis Services 2005 and Microsoft Business Intelligence Platform Database administrators will learn how to design and manage sophisticated OLAP cubes that provide rich data analytics and data mining services The book gives developers the necessary background to extend UDM with custom programming logic in the form of MDX expressions scripts and NET code It teaches them how to implement a wide range of reporting applications that integrate with Analysis Services Reporting Services and Microsoft Office This book doesn't assume any prior experience with OLAP and Microsoft Analysis Services It is designed as an easy to follow guide where each chapter builds upon the previous to implement the components of the innovative Unified Dimensional Model UDM in a chronological order New concepts are introduced with step by step instructions and hands on demos What's Inside o Design sophisticated UDM models o Build ETL processes with SSIS o Implement data mining tasks o Enrich UDM programmatically with MDX o Extend UDM with SSAS stored procedures o Create rich end user model o Optimize Analysis Services storage and processing o Implement dynamic security o Build custom OLAP clients o Author standard and ad hoc reports with SSRS o Build Office based BI applications and dashboards o and much more

Fundamentals of Environmental Sampling and Analysis Chunlong Zhang, 2024-02-29 Fundamentals of Environmental Sampling and Analysis A fully reworked and updated introduction to the fundamentals and applications of environmental sampling and analysis Environmental sampling and analysis are essential components of environmental data acquisition and scientific research The acquisition of reliable data with respect to proper sampling chemical and instrumental methodology and QA/QC is a critical precursor to all environmental work No would be environmental scientist engineer or policymaker can succeed without an understanding of how to correctly acquire assess and use credible data Fundamentals of Environmental Sampling and Analysis 2nd edition provides this understanding with a comprehensive survey of the theory and applications of these critical sampling and analytical tools The field of environmental research has expanded greatly since the publication of the first edition and this book has been completely rewritten to reflect the latest studies and technological developments The resulting mix of theory and practice will continue to serve as the standard introduction to the subject Readers of the second edition of Fundamentals of Environmental Sampling and Analysis will also find Three new chapters and numerous expanded sections on topics of emerging environmental concerns Detailed discussion of subjects including passive sampling Raman

spectroscopy non targeted mass spectroscopic analysis and many more Over 500 sample problems and solutions along with other supplementary instructional materials Fundamentals of Environmental Sampling and Analysis is ideal for students of environmental science and engineering as well as professionals and regulators for whom reliable environmental data through sampling and analysis is critical [An Introduction To High Content Screening](#) Steven A. Haney,Douglas Bowman,Arijit Chakravarty,Anthony Davies,Caroline Shamu,2015-01-07 Using a collaborative and interdisciplinary author base with experience in the pharmaceutical industry and academia this book is a practical resource for high content HC techniques Instructs readers on the fundamentals of high content screening HCS techniques Focuses on practical and widely used techniques like image processing and multiparametric assays Breaks down HCS into individual modules for training and connects them at the end Includes a tutorial chapter that works through sample HCS assays glossary and detailed appendices **Testing Angular Applications** Corinna Cohn,Michael Giambalvo,Jesse Palmer,Craig Nishina,2018-11-07 Summary Testing Angular Applications is an example rich hands on guide that gives you the real world techniques you need to thoroughly test all parts of your Angular applications By the end of this book you ll be able to confidently write unit and end to end tests for Angular applications in TypeScript Foreword by Brad Green Google Purchase of the print book includes a free eBook in PDF Kindle and ePub formats from Manning Publications About the Technology Don t leave the success of your mission critical Angular apps to chance Proper testing improves code quality reduces maintenance costs and rewards you with happy users New tools and best practices can streamline and automate all aspects of testing web apps both in development and in production This book gets you started About the Book Testing Angular Applications teaches you how to make testing an essential part of your development and production processes You ll start by setting up a simple unit testing system as you learn the fundamental practices Then you ll fine tune it as you discover the best tests for Angular components directives pipes services and routing Finally you ll explore end to end testing mastering the Protractor framework and inserting Angular apps into your continuous integration pipeline What s inside Getting to know TypeScript Writing and debugging unit tests Writing and debugging end to end tests with Protractor Building continuous integration for your entire test suite About the Reader This book is for readers with intermediate JavaScript skills About the Author Jesse Palmer is a senior engineering manager at Handshake Corinna Cohn is a single page web application specialist Mike Giambalvo and Craig Nishina are engineers at Google Table of Contents Introduction to testing Angular applicationsPART 1 Unit testing Creating your first tests Testing components Testing directives Testing pipes Testing services Testing the router PART 2 End to end testing Getting started with Protractor Understanding timeouts Advanced Protractor topics PART 3 Continuous integration Continuous integration Appendix A Setting up the sample project Appendix B Additional resources [Human-in-the-Loop Machine Learning](#) Robert (Munro) Monarch,Robert Munro,2021-07-20 Human in the Loop Machine Learning lays out methods for humans and machines to work together effectively Summary Most machine learning systems

that are deployed in the world today learn from human feedback However most machine learning courses focus almost exclusively on the algorithms not the human computer interaction part of the systems This can leave a big knowledge gap for data scientists working in real world machine learning where data scientists spend more time on data management than on building algorithms Human in the Loop Machine Learning is a practical guide to optimizing the entire machine learning process including techniques for annotation active learning transfer learning and using machine learning to optimize every step of the process Purchase of the print book includes a free eBook in PDF Kindle and ePub formats from Manning Publications About the technology Machine learning applications perform better with human feedback Keeping the right people in the loop improves the accuracy of models reduces errors in data lowers costs and helps you ship models faster About the book Human in the Loop Machine Learning lays out methods for humans and machines to work together effectively You ll find best practices on selecting sample data for human feedback quality control for human annotations and designing annotation interfaces You ll learn to create training data for labeling object detection and semantic segmentation sequence labeling and more The book starts with the basics and progresses to advanced techniques like transfer learning and self supervision within annotation workflows What s inside Identifying the right training and evaluation data Finding and managing people to annotate data Selecting annotation quality control strategies Designing interfaces to improve accuracy and efficiency About the author Robert Munro Monarch is a data scientist and engineer who has built machine learning data for companies such as Apple Amazon Google and IBM He holds a PhD from Stanford Robert holds a PhD from Stanford focused on Human in the Loop machine learning for healthcare and disaster response and is a disaster response professional in addition to being a machine learning professional A worked example throughout this text is classifying disaster related messages from real disasters that Robert has helped respond to in the past Table of Contents PART 1 FIRST STEPS 1 Introduction to human in the loop machine learning 2 Getting started with human in the loop machine learning PART 2 ACTIVE LEARNING 3 Uncertainty sampling 4 Diversity sampling 5 Advanced active learning 6 Applying active learning to different machine learning tasks PART 3 ANNOTATION 7 Working with the people annotating your data 8 Quality control for data annotation 9 Advanced data annotation and augmentation 10 Annotation quality for different machine learning tasks PART 4 HUMAN COMPUTER INTERACTION FOR MACHINE LEARNING 11 Interfaces for data annotation 12 Human in the loop machine learning products **Getting started with Spring Framework: covers Spring 5 (4th Edition)** Ashish Sarin,J Sharma,2017-11-28 Chapter 1 of this book is now available online bit ly 2z8ErGg 4th Edition reflects changes to Spring 5 and includes new chapters on Functional and Reactive application development Reactive application development chapters cover Reactive Streams specification RxJava 2 Reactor Spring WebFlux and reactive support in Spring Data and Spring Security The examples consisting of 88 sample projects that accompany this book are based on Spring 5 0 1 and Java 9 You can download the examples described in this book from the following GitHub project github com getting started with
