

8th Grade Commencement Speech

Waking up that early morning in premature September, I didn't know what I was going to face-it being the first day of middle school. All I knew is that I had lost my friends to the ravenous void that was fate-causing our paths to be torn as we were split among the middle schools. That being said, I didn't know anyone here-other than some vaguely familiar faces. Nevertheless, that fear was lost as I realized how welcoming and caring this community could be. I was welcomed in open arms of kindness, and I quickly made wonderful friends here. Wherever I would turn, I would be greeted with warm hospitality-as well as a wondrous education, which has helped me discover which paths in my career I wish to take, which could be true for the many of you as well. Throughout these last three years, we have all learned valuable life lessons-no matter who you are I'm sure of it. We've all gained a part of ourselves and are welcoming who we shall become. It's been a long road for each and every one of us, but I have no doubt in my mind that everyone in this room has become a better individual because of the magnificent staff and teachers who reside here. They haven't just taught us how to construct math formulas, build hypotheses, connect to our books, and become middle school students. They've done much more than that. We've made connections with our instructors, and through those relations we have learned a great deal of life lessons. No matter who you are, I know that this is valid-and I know that when we all grow up and graduate high school-and move on to bigger and brighter things, we'll think of those here who have helped us on our journey-and never gave up on us. This institution has striven for us to succeed-not just here, and not just in the high school, but for the rest of our lives. That, and more, is more than enough to prove that this Middle School is truly the best middle school, the world has ever known. And of course, we all know each and every one of us will continue to grow, to flourish, but many of the feats and accomplishments we've made up to now is thanks to those we will soon be leaving behind. For everything they've done for us, and for what we've done to help one another, I thank you all.

candidates However politicians from both parties and from all racial backgrounds continually appeal to negative racial attitudes for political gain Challenging what we think we know about race and politics LaFleur Stephens Dougan argues that candidates across the racial and political spectrum engage in racial distancing or using negative racial appeals to communicate to racially moderate and conservative whites the overwhelming majority of whites that they will not disrupt the racial status quo Race to the Bottom closely examines empirical data on racialized partisan stereotypes to show that engaging in racial distancing through political platforms that do not address the needs of nonwhite communities and charged rhetoric that targets African Americans immigrants and others can be politically advantageous Racialized communication persists as a well worn campaign strategy because it has real electoral value for both white and black politicians seeking to broaden their coalitions Stephens Dougan reveals that claims of racial progress have been overstated as our politicians are incentivized to employ racial prejudices at the expense of the most marginalized in our society Migizi Express ,1994
