software enables users to analyze microdata from sources such as household surveys and generate print ready standardized tables and charts. It can also be used to simulate the impact of economic shocks, farm subsidies, cash transfers, and other policy instruments on poverty, inequality, and labor. The software automates the analysis, helps minimize human errors, and encourages development of new economic analysis methods. ADePT supports datasets in Stata, SPSS, and tab delimited text formats. ADePT incorporates Numerics by Stata installed with ADePT as its computational engine. For each run, ADePT produces one output file containing your selection of tables and graphs, an optional original data summary, and errors and notifications in Microsoft Excel format. Optionally, tables of standard errors and frequencies can be added to a report.

PC Basics with Windows 7 and Office 2010 Kim Lindros, 2010-11 This book presents a complete survey of the computer technologies necessary for achieving basic technology literacy. It provides a strong foundation by giving the reader the background needed to make smart buying decisions about computer technology. It then gives a description of the hardware that is the foundation of all of the technologies used every day, whether it's a laptop, personal computer, smartphone, or other digital device. From there, it explains how the Internet actually works. It then guides the reader through engaging, step by step tutorials on how to use the Windows 7 operating system and the popular Office 2010 productivity tools, including Word, Excel, and Powerpoint. The book is written in a conversational and engaging style. At the end of each chapter, there are review questions and a project to apply what has been learned.

**The Vixen Star Book User Guide** James Chen, Adam Chen, 2015-10-01 This book is for anyone who owns or is thinking of owning a Vixen Star Book Ten telescope mount or its predecessor. A revolution in amateur astronomy has occurred in the past decade with the wide availability of high tech, computer driven Go To telescopes. Vixen Optics is leading the way by offering the Star Book Ten system with its unique star map graphics software. The Star Book Ten is the latest version of computer telescope control, using star map graphics as a user interface, first introduced in the original Star Book, first offered in 2003. The increasingly complicated nature of this software means that learning to optimize this program is not straightforward, and yet the resulting views, when all features are correctly deployed, can be phenomenal. After a short history of computerized Go To telescopes for the consumer amateur astronomer market, Chen offers a treasury of technical information. His advice, tips, and solutions aid the user in getting the most out of the Star Book Ten system in observing sessions.
