**Ars Vitae** Elisabeth Lasch-Quinn, 2020-10-15 Despite the flood of self help guides and our current therapeutic culture feelings of alienation and spiritual longing continue to grip modern society In this book Elisabeth Lasch Quinn offers a fresh solution a return to classic philosophy and the cultivation of an inner life The ancient Roman philosopher Cicero wrote that philosophy is ars vitae the art of living Today signs of stress and duress point to

a full fledged crisis for individuals and communities while current modes of making sense of our lives prove inadequate Yet in this time of alienation and spiritual longing we can glimpse signs of a renewed interest in ancient approaches to the art of living In this ambitious and timely book Elisabeth Lasch Quinn engages both general readers and scholars on the topic of well being She examines the reappearance of ancient philosophical thought in contemporary American culture probing whether new stirrings of Gnosticism Stoicism Epicureanism Cynicism and Platonism present a true alternative to our current therapeutic culture of self help and consumerism which elevates the self s needs and desires yet fails to deliver on its promises of happiness and healing Do the ancient philosophies represent a counter tradition to today s culture auguring a new cultural vibrancy or do they merely solidify a modern way of life that has little use for inwardness the cultivation of an inner life stemming from those older traditions Tracing the contours of this cultural resurgence and exploring a range of sources from scholarship to self help manuals films and other artifacts of popular culture this book sees the different schools as organically interrelated and asks whether taken together they can point us in important new directions *Ars Vitae* sounds a clarion call to take back philosophy as part of our everyday lives It proposes a way to do so sifting through the ruins of long forgotten and recent history alike for any shards helpful in piecing together the coherence of a moral framework that allows us ways to move forward toward the life we want and need

Education for Knowing Paul A. Wagner, Frank K. Fair, 2020-10-30 If our goal is Education for Knowing as the title says then we need to be guided by a conception of what knowing is For example we can all agree that there are math facts that students need to learn and we can agree that there are general concepts and laws that students should be acquainted with But is there more involved perhaps something like nurturing in students a desire to probe deeper into the workings of thing Or developing a capacity to explain why things work the way they do Our conceptions of what genuine knowing is serve as guides to what we think the goal of education is and they tell us how to build a student However as it turns out there are multiple conceptions of what knowing truly involves and these conceptions tend to be different for different sets of education stakeholders such as parents and their children school administrators and educational researchers Understanding this diversity of conceptions of knowing will make it easier for representatives of the different stakeholder groups to work together to accomplish the goal of building knowing students

Socratic Discourses is a compelling anthology that brings together the vivid and penetrating dialogues of two of Ancient Greece's most profound thinkers Plato and Xenophon At its core the collection explores the Socratic method marked by questioning and critical discussion as a means to unravel the complexities of ethics governance and human behavior The anthology enriches the reader's encounter with varied literary styles Plato's text often interweaves dramatic flair with intricate philosophical reasoning while Xenophon embraces straightforward narrative and clarity offering distinct yet complementary insights into Socratic thought These dialogues are more than mere historical documents they invite a reflection on timeless questions about right living and the pursuit of truth Encompassing perspectives from both Plato and Xenophon this collection captures the essence of distinct literary contexts shaped by their experiences as disciples of Socrates Plato's contributions are infused with profound theoretical exploration often embodying the very spirit of Athenian intellectualism and the philosophical currents of his time In contrast Xenophon a historian and soldier offers a more pragmatic lens reflecting the socio political milieu of classical Greece and emphasizing practical ethics Together these diverse voices forge an engaging dialogue that bridges the philosophical with the practical illuminating the Socratic ideal of a life well examined Socratic Discourses promises readers a unique journey into the heart of classical philosophy bridging Plato's abstract intricacies with Xenophon's straightforward narration This anthology serves not only as a philosophical treatise but also as an opportunity to engage with two distinct interpretative paradigms that capture the essence of Socratic thinking An education in itself this collection offers a chance to immerse in the richness of ancient discourse inviting readers to contribute to an ongoing dialogue sparked centuries ago by Socrates himself Perfect for both scholars and those new to classical philosophy this volume is a beacon of thought provoking discussion and reflective wisdom      *Southern Literary Messenger* ,1850      **The Southern literary messenger** ,1850
