Politixworks (Liberal Edition). Chuck U. Farlie, 2015 Politixworks is a satirical examination of the fecklessness of leadership in a modern democracy In it there are allusions to the two normative ideologies liberalism and conservatism wrestling with each other through the personifications of Lyndon Johnson and Theodore Cruz Struggling to win the hearts and minds of a community of 12 year old children the two rivals are like old ghosts battling for the soul of their class Both aspire to lead the 6th grade to their own ends which requires that they transform into political leaders They are craven crass brutish impulsive and reckless

Liberalism and War Andrew J. Williams, 2006 Military power is now the main vehicle for regime change The US army has been used on more than 30 different occasions in the post Cold War world compared with just 10 during the whole of the Cold War era Leading scholar Andrew Williams tackles contemporary thinking on war with this detailed study on liberal thinking over the last century about how wars should be ended using a vast range of historical archival material from diplomatic other official and personal papers which this study situates within the debates that have emerged in political theory He examines the main strategies used at the end and in the aftermath of wars by liberal states to consolidate their liberal gains and to prevent the re occurrence of wars with those states they have fought This new study also explores how various strategies reversion restitution reparation restraint retribution reconciliation and reconstruction have been used by liberal states not only to defeat their enemies but also transform them This is a major new contribution to contemporary thinking and action This book will be of great interest to all students and scholars of politics international relations and security studies
