Firestone, Roberta Y. Schorr, Lora F. Monfils, 2004-04-12 Testing is one of the most controversial of all state and federal educational policies The effects of testing are quite ambiguous The same test may lead to different consequences in different circumstances and teachers may use very different strategies to prepare students for tests Although most experts agree that mandatory testing leads to teaching to the test they disagree about whether it leads to meaningless drill wasted time de professionalizing teachers and demotivating students or to more challenging and thoughtful curricula more engaging teaching increased student motivation and increased accountability To help sort through this ambiguity and provide a firmer
