TAKE 2017 Blazenka Knezevic, Gaby Neumann, 2017-07-08 Foreword A famous Portuguese Poet once said around one
hundred years ago before I was born all the words that should save the Humanity had already been written the only thing
that was missing was to save Humanity Fast forward to the 21st century services led and knowledge based economy and we
have myriads of theoretical study about the decisive assets namely intangibles Those analysis are made in several
perspectives namely Human Resources Knowledge Management Intellectual Capital and also many sectorial perspectives like
Trade Economics Logistics Social Policy etc However today the question about the applicability of all these studies remains
unsolved So it like many of the words that will save the Knowledge Economy have already been written all we need is to save
the Knowledge Economy Or is it not The idea behind TAKE Conference was to provide a multidisciplinary forum in which
those multiple perspectives will come together We believe it is a fruitful operation and we intend to continue the exercise in
the future The problem of the relation between theory and practice in the knowledge economy is getting more important and
not less important with the development of the BRICS and other nations TAKE main question will be one of the problems of
the 21st century Following the promising start of TAKE 2016 in Aveiro Portugal TAKE 2017 was organized by the Faculty of
Economics of Zagreb University around Prof Blazenka Knezevic I would like to thank her and her team for the massive effort
