Connecting Places, Connecting People

Reena Tiwari,2017-09-07 What is a better community How can we reconfigure places and transport networks to create environmentally friendly economically sound and socially just communities How can we meet the challenges of growing pollution depleting fossil fuels rising gasoline prices traffic congestion traffic fatalities increased prevalence of obesity and lack of social inclusion The era of car based planning has led to the disconnection of people and place in developed countries and is rapidly doing so in the developing countries of the Global South The unfolding mega trend in technological innovation while adding new patterns of future living and mobility in the cities will question the relevance of face to face connections What will be the glue that holds communities together in the future To build better communities and to build better cities we need to reconnect people and places Connecting Places Connecting People offers a new paradigm for place making by reordering urban planning principles from prioritizing movement of vehicles to focusing on places and the people who live in them Numerous case studies including many from developing countries in the Global South illustrate how this can be realized or fallen short of in practical terms Importantly citizens need to be engaged in policy development to connect with each other and with government agencies To measure the connectivity attributes of places and the success of strategies to meet the needs an Audit Tool is offered for a continual quantitative and qualitative evaluation

Handbook of American Public Administration

Edmund C. Stazyk,H. George Frederickson,2018-10-26 Currently public administration as art and science ponders a challenging and uncertain future Thus no better time exists to take stock and ponder the practical and theoretical value of its topical coverage to date Stazyk and Frederickson have assembled an eclectic and impressive group of senior and junior scholars to

join them in this intellectual exercise Collectively the contributors offer a stiletto like dissection of where and how the field's energy has been expended what knowledge it has produced what its limitations are and where future energies might best be expended Kudos to all Robert F Durant American University US This forward thinking Handbook draws on the expertise of established and emerging scholars to provide a comprehensive review of the current state and future direction of theory and practice in US public administration Chapters offer a cross disciplinary holistic review of the field pulling together leaders from subfields such as public administration public and nonprofit management finance human resource management networks nonprofits policy and politics Chapter authors conclude that the field is intellectually rich and highly nuanced but also identify numerous opportunities for growth and expansion in the coming years The Handbook charts an agenda for future research in the field The Handbook of American Public Administration is geared toward academics researchers and advanced graduate students As an authoritative text on the history and state of US public administration it proves equally suitable for national and international audiences Practitioners who may be looking for background information or state of the art knowledge about practice will also benefit from this Handbook Contributors include G Arnold G A Brewer B J Cook R S Davis L DeHart Davis M D Farnworth P S Federman S Fernandez H G Frederickson H Getha Taylor R K Ghore D Hatmaker K Hendren C J Hill N Humphrey K R Isett S Jo J E Kellough S Y Kim Y Kim L Langbein M Leighninger L E Lynn Jr D S T Matkin B Merriman C C Merritt A V Moldavanova T Nabatchi S Nicholson Crotty R O Leary Z W Oberfield A Osorio S K Pandey Y J Park S Portillo B A Radin W G Resh R L St Clair J R Sandfort L M Shimek A E Smith S R Smith E C Stazyk S Webeck E S Zeemering H L Zook

Facing Segregation Molly W. Metzger, Henry S. Webber, 2018-11-19 Evidence for the negative effects of segregation and concentrated poverty in America's cities now exists in abundance poor and underrepresented communities in segregated urban housing markets suffer diminished outcomes in education economic mobility political participation and physical and psychological health Though many of the aggravating factors underlying this inequity have persisted or even grown worse in recent decades the level of energy and attention devoted to them by local and national policymakers has ebbed significantly from that which inspired the landmark civil rights legislation of the 1960s Marking 50 years since the passage of the Fair Housing and Civil Rights Acts *Facing Segregation* both builds on and departs from two generations of scholarship on urban development and inequality Authors provide historical context for patterns of segregation in the United States and present arguments for bold new policy actions ranging from local innovations to national initiatives The volume refocuses attention on achievable solutions by providing not only an overview of this timely subject but a roadmap forward as the twenty first century assesses the successes and failures of the housing policies inherited from the twentieth Rather than introducing new theories or empirical data sets describing the urban landscape Metzger and Webber have gathered the field's first collection of prescriptions for what ought to be done

Political Exercise Lawrence D. Brown,2022-03-08 The public health benefits of giving city dwellers increased opportunities to lead physically active lifestyles are well known to urban planners public health scholars and government officials Moreover increases in active living such as walking and cycling help the environment support local businesses and reduce traffic congestion among other advantages But despite wide agreement that active living

is both achievable and valuable best practices are not easy to implement In Political Exercise Lawrence D Brown presents five case studies of cities that have promoted active living with varying success through a range of approaches He shows how and why the transformation of a call for public intervention into projects programs and policies is inescapably political Brown argues that in order to implement policies that support active living their proponents must give communities a sense of ownership of recommended changes in the built environment filter the public health agenda through a range of public and private organizations and secure committed political champions At the intersection of public health and urban planning Political Exercise offers a framework for scholars policy makers and reformers to more productively address both the rationales behind active living and the political strategies that spur change [The Routledge Handbook on Greening High-Density Cities](#) Peng Du,Kheir Al-Kodmany,Mir M. Zoning Elliott Sclar, Bernadette Baird-Zars, Lauren Ames Fischer, Valerie Stahl, 2019-11-06 Zoning is at once a key technical competency of urban planning

practice and a highly politicized regulatory tool How this contradiction between the technical and political is resolved has wide reaching implications for urban equity and sustainability two key concerns of urban planning Moving beyond critiques of zoning as a regulatory hindrance to local affordability or merely the rulebook that guides urban land use this textbook takes an institutional approach to zoning positioning its practice within the larger political social and economic conflicts that shape local access for diverse groups across urban space Foregrounding the historical institutional setting in which zoning is embedded allows planners to more deeply engage with the equity and sustainability issues related to zoning practice By approaching zoning from a social science and planning perspective this text engages students of urban planning policy and design with several key questions relevant to the realities of zoning and land regulation they encounter in practice Why has the practice of zoning evolved as it has How do social and economic institutions shape zoning in contemporary practice How does zoning relate to the other competencies of planning such as housing and transport Where and why has zoning an act of physical land use regulation replaced social planning These questions grounded in examples and cases will prompt readers to think critically about the potential and limitations of zoning By reforging the important links between zoning practice and the concerns of the urban planning profession this text provides a new framework for considering zoning in the 21st century and beyond
