Hoosh Jason C. Anthony, 2012-11-01 Antarctica the last place on Earth is not famous for its cuisine Yet it is famous for stories of heroic expeditions in which hunger was the one spice everyone carried At the dawn of Antarctic cuisine cooks improvised under inconceivable hardships castaways ate seal blubber and penguin breasts while fantasizing about illustrious feasts and men seeking the South Pole stretched their rations to the breaking point Today Antarctica's kitchens still wait for provisions at the far end of the planet's longest supply chain Scientific research stations serve up cafeteria fare that often offers more sustenance than style Jason C. Anthony a veteran of eight seasons in the U.S. Antarctic Program offers a rare workaday look at the importance of food in Antarctic history and culture Anthony's tour of Antarctic cuisine takes us from hoosh a porridge of meat fat and melted snow often thickened with crushed biscuit and the scurvy ridden expeditions of Shackleton and Scott through the twentieth century to his own preplanned three hundred meals plus snacks for a two person camp in the Transantarctic Mountains The stories in *Hoosh* are linked by the ingenuity good humor and indifference to gruel that make Anthony's tale as entertaining as it is enlightening

Frozen Empires Adrian Howkins, 2017 *Frozen Empires* is a study of the ways in which imperial powers American European and South American have used and continue to use the environment and the value of scientific research to support their political claims in the Antarctic Peninsula region In making a case for imperial continuity this book offers a new perspective on Antarctic history and on global environmental politics more broadly

Tiered Fluency Instruction Chase Young, Timothy Rasinski, 2016-08 Fluency is an important part of comprehension but how can teachers make sure they're providing the support that all readers need This resource will provide fluency support for all students including disfluent readers Chapters are included on RTI Tiers assessment and ways to integrate technology

Penguin Summer Eleanor Rice Pettingill, 2019-11-22 Penguin Summer first published in 1960 recounts the husband and wife expedition to the Falkland Islands in the 1950s to study the penguins and other birds found on these harsh isolated islands in the south Atlantic In addition to a description of the birds and their habits author Eleanor Pettingill describes her and spouse Sewall Pettingill's adventures on the islands and the life of the hardy islanders all told in an engaging likable style Included are 54 pages of maps and photographs

Climate Change and Clean Energy Management Henry Wang, 2019-10-22 Climate change has never been more important than it is now as it has become arguably the world's most urgent problem Solving this problem is proving difficult and complex as it involves joint efforts by governments companies communities and innovators The increased use of fossil fuels associated with global economic growths has led to rising GHG emissions and global warming There are many challenges for countries that are enacting new climate and clean energy regulations in line with their Paris Agreement commitments Good government policies and corporate strategies are essential to support these efforts as part of the global climate change crisis This important book addresses the latest climate change impacts and developments in potential mitigation strategies These include fossil to clean energy transition smart low carbon city designs green transportation electric vehicles green agriculture carbon emission trading carbon capture solutions plus climate finance and risk management Potential new policies and strategies to support the successful implementation of these important strategic areas are discussed together with high level country and business case examples This book is essential reading for policy makers government employees business executives professionals researchers and academics alike looking to affect change to global climate and energy policies

The Great Penguin Rescue Dyan deNapoli, 2011-08-16 On June 23 2000 a ship en route from Brazil to China foundered off the coast of South Africa spilling 1 300 tons of oil into the ocean and contaminating the habitat of 75 000 penguins Local conservation officials immediately launched a massive rescue operation and 12 500 volunteers from around the globe rushed to South Africa in hopes of saving the imperiled birds Serving as a rehabilitation manager during the initial phase of the three month effort Dyan deNapoli better known as the Penguin Lady for her extensive work with penguins and fellow volunteers de-oiled nursed back to health and released into the wild nearly all of the over 19 000 affected birds Now at the tenth anniversary of the disaster deNapoli recounts the extraordinary story of the world's largest and most successful wildlife rescue From publisher description
